

**Procurement of C-130 Cockpit and Navigation Upgrade
Resolution 18-18**

WHEREAS, the C-130 fleet is an aging aircraft and the average age of the fleet will continue to grow into the foreseeable future; and

WHEREAS, a key ingredient to our National Security is a C-130 which will modernize the fleet to meet future CNS/ATM and Net Centric Operations (NCO) requirements; and

WHEREAS, a cockpit and navigation upgrade will provide the enhanced digital avionics and increased situational awareness for the warfighter over the legacy analog flight deck, and digital displays will dramatically increase information available to aircrews at a glance, simplify tasks and decrease workload; and

WHEREAS, a cockpit and navigation upgrade will improve system reliability, and maintainability which ensures higher mission readiness capability and mission completion rates; and

WHEREAS, implementation of a C-130 common flight deck upgrade simplifies the training logistics requirements and operational employment for Total Force Integration;

NOW, THEREFORE BE IT RESOLVED that ROA, chartered by Congress, urge Congress of the United States to fully support and fund procurement of Air Force Reserve Component C-130 cockpit and navigation upgrades.
