An Overview of Shared Risk and Protective Factors for Violence and Unintentional Injury

Natalie Wilkins, PhD
National Center for Injury Prevention and Control
Centers for Disease Control and Prevention

Safe States Webinar
February, 2019
Shared Root Causes Risk and Protective Factors

Child Abuse & Neglect

Youth Violence

Suicide

Sexual Violence

Bullying

Intimate Partner Violence

Individual Factors
- Substance Abuse
- Mental Health

Relationship Factors
- Social Isolation
- Family Conflict

Community & Societal Factors
- Media Violence
- Income Inequality
- Rigid Gender Norms
- Alcohol Outlet Density
We are finding that a similar structure works for unintentional injury too
Shared Risk Factors for Unintentional Injury & Violence

- Suicide
- Child Abuse & Neglect
- Motor Vehicle Injury
- Traumatic Brain Injury
- Opioid Overdose
- Youth Violence
- Sexual Violence
- Bullying
- Intimate Partner Violence

Individual Factors

Substance Abuse
Shared Protective Factors for Unintentional Injury & Violence

- Youth Violence
- Teen Dating Violence
- Bullying
- Motor Vehicle Injury
- Suicide
- Child Abuse & Neglect

Relationship Level

- Family Support & Connectedness
- Prosocial Peers
Advantages of Shared RF/PF Approach

Develop new partnerships

Leverage resources/Funding streams

Increase reach

Scale up impact
Connecting the Dots on VetoViolence

Exploring the overlaps between multiple forms of violence and working toward collaborative prevention.

The findings and conclusions in this report are those of the authors and do not necessarily represent the official position of the Centers for Disease Control and Prevention.
The RI Department of Health’s Violence and Injury Prevention Program works closely with RI Student Assistance Services and others to utilize SRPFs in their work, four of which will be discussed today:

1. Suicide and substance abuse prevention work within geographically defined “Health Equity Zones”

2. Working collaboratively with other public health programs to address SRPFs

3. Implementation of a universal suicide prevention program/protocol within RI public school districts which utilizes a screener for SRPFs for substance abuse and suicide

4. Providing emotional regulation training to RI public middle school students
From Surveillance to Action
Adverse Childhood Experiences in New York State

Michael Bauer, MS and Glynnis Hunt, MS
Injury-Free NC Academy: Violence Prevention Using Shared Risk and Protective Factors

Builds the capacity of multi-sector teams across NC by developing public health skills in

• Primary prevention of multiple forms of violence using a shared risk and protective factors approach
• Program planning, implementation, and evaluation of evidenced-based/evidence-informed strategies

Focuses on strength-based approaches in communities

• What resources are available?
• What CAN we do?
• What new and existing community partners can we work with to develop a shared agenda?

Links participants to

• Technical assistance (coaching, subject matter experts)
• Implementation supports (tools, resources)
• Potential funding (RPE, DELTA, Essentials for Childhood, AFSP-NC, other sources)
• Peer/professional networks

Co-sponsored by NCDHHS Division of Public Health and UNC Injury Prevention Research Center in partnership with NC Coalition Against Domestic Violence, NC Coalition Against Sexual Assault, NC Essentials for Childhood, NC Rape Prevention and Education Program, NC Suicide Prevention
