1 day workshop 08 Entitled

How Technology Evolution Enables Inventive Engineering Design

Workshop Developer and Facilitator :

Mr. Jac Spies, B.Sc. Mathematics & Mathematical Statistics, Grad. Business and Project Management (UNISA Business School), MMCSA, MSAIMechE.

PG, (Managing Director): My mind has been opened to how I need to focus on our business going forward.

NM (Candidate Tech): Well presented, informative. Good presenter! Thank you for sharing your knowledge with us. It was very helpful.

TJ: (Candidate Tech): I really enjoyed this course. I would also like to attend more courses held by the presenter. He is a very intelligent man and as technicians / engineers, we need someone like him to coach us to be better people in our careers.

IG (Artisan Foreman): I learnt a lot of new ideas to problem solving. A very informative course which will help me at work and home. Thanks for sharing your knowledge.

SM (Dep. Dir.): Very interesting. Would recommend it to our senior levels.

MvV (Plant Eng): Interesting and good course.

JH (Design Eng): Presenter was very knowledgeable and has a deep understanding of the topic. Very good course.

SR (Mech Eng): Great course. Extremely informative.

LM (Director): Nice event, well presented, good interaction with presenter and attendees.
