## SAMSOG Education Foundation

The SAMSOG Education Foundation was created by the Surveying and Mapping Society of Georgia to provide a tax deductible mechanism for donations of money and other gifts to support education and programs related to the land surveying profession in GA. The SAMSOG Education Foundation is an approved 501c3 charitable foundation and is directly managed by a board of trustees that are also members of the Surveying and Mapping Society of GA. Your contributions to the foundation are tax-deductible and will go directly to assist students and education programs related to land surveying in Georgia.

### About SAMSEF

The SAMSOG Education Foundation (SAMSEF) manages and operates the Ben W. Fortson scholarship for land surveying students throughout the state. With a balance of almost \$200,000.00, the scholarship has assisted well over 100 land surveying students with financial scholarships in recent years. One of the Foundation's goals is to establish multiple surveying related scholarships that focus on education for all career levels within the land surveying industry.

The Foundation also provides assistance to education programs throughout the state through financial and other types of donations.

The Foundation further strives to assist the land surveying industry by publicizing the profession of land surveying to students and others that may be interested in starting a land surveying career.

*Consider becoming a supporter of the SAMSOG Education Foundation by making your tax-deductible donations today!*

### Support Opportunities

*SAMSEF offers the following opportunities to those wishing to support our profession:*
