

**WEBINAR  
WEDNESDAY**

**February 19, 2020**  
2:00–3:00 p.m. (EST)

## **Proper Training for BATs and Collectors**

Presented by Brian Terry, Corporate Training Manager, Intoximeters, Inc. & Betye Bailey, Training Coordinator, Intoximeters, Inc.

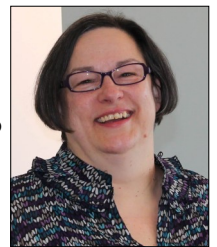

When we think about how to successfully demonstrate compliance with drug and alcohol, proper training for Breath Alcohol Technicians and Collectors is a key component. There is a wide variety of training out there in the industry. However, according to the Department of Transportation Drug and Alcohol Testing Regulations, there is a correct way and an incorrect way. During this webinar, we will discuss:

- What are the regulatory requirements according to ODAPC?
- How to deliver the required components.
- Delivery of mock tests.
- Classroom training versus webcam training issues.

Brian Terry has over 17 years of experience in the drug and alcohol testing industry and is the new Corporate Training Manager at Intoximeters. Brian is a teacher/trainer and a Certified Master Trainer for Intoximeters, Inc. With his experience, he brings a unique approach to industry trainings into the classroom. Brian enjoys working with and supporting employers and service agents to stay compliant with DOT rules and regulations.

Betye Bailey has been with Intoximeters since 1996 and has trained over 6,000 Operators, BATs, UDS Collectors, and Instructors throughout the US, South America and Europe. She has recently taken a step towards retirement by moving out of the management function of the Intoximeters Training Department, but remains involved in the day-to-day activities of training.

**Webinar is FREE for SAPAA members, \$39 for non-members.
