6. **Investment Policy**

a. **Introduction** - The responsibilities of the Board of Directors of the South Carolina Academy of Physician Assistants include investment decisions. This policy supports the concept of the Prudent Investor Act and holds that: "Those with responsibility to invest money for others should act with prudence, discretion, and intelligence with regard for the safety of capital as well as income."

b. **Mission** - The Mission of the South Carolina Academy of Physician Assistants is to promote quality, cost effective, and accessible healthcare through the professional and clinical development of physician assistants in the state of South Carolina.

c. **Purpose of Investment Policy** - As a non-profit 501(c)6 organization that generates financial resources principally by membership dues and continuing medical education conference related fees, SCAPA has a responsibility to invest its assets prudently. Since SCAPA acts as a fiduciary for the prudent administration of its financial assets and as a guardian of the public trust, its investment philosophy is to protect its investment, to obtain a reasonable and competitive return on its assets, and to ensure a reasonable degree of liquidity, consistent with the acceptance of prudent risk. Investments shall be made solely in the interest of the membership for the exclusive purpose of providing benefits accrued there under and defraying the reasonable expenses of administration.

d. **Investment Objectives** –
   i. Cash reserves (unrestricted net assets) will be used for income. (See Investment Policy Statement)
   ii. The board is responsible for determining the minimum amount of SCAPA’s cash reserves with input and advice from the Finance Committee.
iii. Temporarily restricted funds are short term funds (1 year or less). Income from these funds will be reinvested for growth or specified for a particular project or capital purchase.

e. Responsibilities - The Board of Directors, members of the Finance Committee, Executive Director, and Investment Consultant(s) shall act with care, skill, prudence, and diligence under the circumstances then prevailing that a prudent man acting in like capacity and familiar with such matters would use in the investment of a fund of like character and with like aims.

   i. The Board of Directors is responsible for the oversight of investments. They are responsible for defining the investment objectives and policies, subject to the overall guidelines set forth in this policy.

   ii. The Finance Committee, in consultation with the Executive Director and financial consultant, are responsible for monitoring and recommending changes to the investment policy.

   iii. The Executive Director is responsible for implementing the approved policy, guidelines and objectives.

   iv. The Investment Consultant(s) provides counseling on the selection of all investments as outlined in this policy and provides asset allocation and investment performance reports related to investment goals.

f. Risk Tolerance - The risk market, liquidity, and credit must be borne in mind in evaluating the prudent use of available funds. Although preservation of principle is of prime importance, this investment policy recognizes the need to assign to certain classes of investments a high priority on liquidity and safety and to others a greater emphasis on the rate of return. The degree of risk is to be appropriately measured against the investment objectives of each class of funds.

g. Asset Allocation and Diversification will be based on both current and short terms needs as well as the long term investment objectives. Investments shall be so diversified as to minimize the risk of large losses.

h. Performance Evaluation - The board realizes that there are many benchmark indexes commonly used to evaluate portfolio performance. These benchmarks include, but are not limited to, the S&P500 Stock Index, the Dow Jones Industrial Average, and the Lehman Brothers Aggregate Bond Index.

   i. At a minimum, income and growth are the investment objectives with a goal of 2% growth over and above the CPI on an annual rolling average.

   ii. The Finance Committee should review portfolio performance every six months and should meet annually with the financial advisor to discuss investment options.

i. Investment Policies and Constraints

   i. Income investments will be restricted to credit ratings of BBB and higher. (AAA, AA, A, BBB) These ratings are termed “investment grade” quality issues. Bonds with these credit ratings are judged to have a strong ability to pay interest and principal. Yankee bonds and notes (bonds or notes issued by non-U.S. based corporations, but traded in the U.S.), securitized mortgages, asset-backed securities, and preferred stock, real estate investment trusts.

ii. Mutual Funds offer choice, liquidity, and convenience. Benefits of mutual funds include diversification and professional money management. Both open end and exchange traded funds are permitted.

iii. Cash equivalents include: money market accounts, bank savings accounts, U.S. Government notes and bills, commercial paper and certificates of deposits.

j. The SCAPA Board of Directors believes that the investment policies described in this statement should be dynamic. These policies reflect the financial status of SCAPA and the Board’s philosophy regarding the investment of assets. These policies will be reviewed and revised periodically, but not less than every 2 years, to ensure they adequately reflect changes related to the investment objectives, financial resources, and the capital markets.

**Investment Policy Statement – Unrestricted Net Assets (Cash Reserves)**

**Purpose:** The purpose of SCAPA’s Unrestricted Net Assets (Cash Reserves) is to support SCAPA’s educational objectives and service goals and objectives as set forth by the Board of Directors.
**Objective:** The investment objective of the SCAPA cash reserves is to maximize total return (interest, dividends and capital gains) on principal while, at the same time, attaining a proper and responsible balance among such factors as safety of principal, liquidity, and yield.

The Board of Directors has established a financial goal of building a cash reserve fund equal to 50% of the annual operating budget exclusive of program support over a 10 year period. Contributions to the reserve fund are determined by the Finance Committee during the annual budget meeting with ratification by the Board of Directors at the first quarter meeting.

The cash reserve fund is an unrestricted net asset providing an economic safety net insuring that SCAPA will have the ability to fund a non-budgeted activity under extraordinary circumstance and that SCAPA will be able to conduct business during a period of revenue shortfall.
