NSPA Mission

The mission of the National Scholarship Providers Association (NSPA) is to advance the collective impact of scholarship providers, and the scholarships they award.

NSPA Membership Conditions

Membership in the NSPA is open to organizations, institutions, entities, and individuals who are active in the scholarship provider community, seek to foster a positive association within this community, support and contribute to the NSPA goals, maintain their membership in good standing, and uphold the responsibilities and integrity of the NSPA without conflict of interest.

NSPA members include scholarship organizations and colleges and universities that may select scholarship recipients based on a wide variety of meaningful selection criteria, which may include academic merit, achievement despite life's obstacles, financial need, gender, race, ethnicity, religious affiliation, geography, and/or other attributes. Many such scholarships are driven by the missions of their organizations or higher education institutions and are designed to support underrepresented groups and/or particular accomplishments or circumstances. The NSPA acknowledges the diverse missions, and the important work of its member organizations and institutions.

The NSPA is a 501(c) 3 organization that in all of its operations, including its hiring and business practices and collaborations with other organizations and individuals, upholds standards of equality and does not discriminate on the basis of race, religion, creed, national origin, age, sex, or sexual orientation. NSPA expects that in matters of hiring and collaborations that its members uphold these same standards of equality and non-discrimination, and requires the faithful discharge of that responsibility as a condition of membership.

NSPA Member Benefits for All Membership Types

A complete description of Member Benefits may be found [here](#). Each member must designate one individual to serve as the voting member. The designated voting individual may be changed by the organization or program at any time upon notice to the NSPA.

NSPA member benefits (i.e. resource and webinar access, banner ads, conference registrations) exist only in the name of the company holding the membership. Such benefits are non-transferable to affiliate companies (i.e. subsidiaries, divisions, sister companies, wholly owned entities) or to the parent company associated with the registered member subsidiary company.

Scholarship Providers – Annual Dues: \$220 - \$1,200

This membership type is granted to two kinds of scholarship providers. Scholarships must be awarded based on identified and meaningful criteria.

1. **Scholarship Provider I: An organization or individual that awards scholarships as one of its principle purposes.** This category can include organizations that are also grant makers. Typical entities that fall into this category include non-profit organizations such as private, corporate, and college or university foundations, community foundations or other public charities.
2. **Scholarship Provider II: An entity that awards scholarships as one of its key activities, but conducts other business as its principle purpose.** Typical entities that fall into this category include corporations or professional and/or associations that reward their employees or work to incent students to pursue a particular career field, issue-based organizations, banks, statewide higher education networks or commissions, school districts, student membership organizations (if a reasonable fee is charged, these organizations must offer in exchange demonstrable benefits in the best interest of their student members), and other entities that offer scholarships for higher education.

Membership includes member benefits for unlimited number of individuals from each member organization. Scholarship Provider membership dues are assessed annually based upon the scholarship dollars awarded by each organization or program. See the chart below:

<u>Scholarship Dollars Disbursed</u>	<u>Annual Dues</u>
Less than \$250,000	\$220
\$250,000 to \$499,999	\$295
\$500,000 to \$999,999	\$510
\$1,000,000 to \$9,999,999	\$730
\$10,000,000 and up	\$1,200

Please note: Entities that provide scholarships which are awarded without meaningful criteria and/or on a random basis (e.g. through sweepstakes or a lottery) are not eligible for the NSPA membership. Entities that are not student membership based (as defined previously) and charge students for access to their scholarship information (either the application or the award criteria) are not eligible for membership in the NSPA.

Plus/Premium Scholarship Providers - Annual Dues: \$1,500 & \$5,000

Plus/Premium memberships give NSPA members a way to contribute to the enhancement and development of resources and professional development opportunities for members. If your organization is interested in this type of expanded membership to support the NSPA and the scholarship sector, three levels are available that include additional benefits. A complete description of Plus/Premium member benefits may be found [here](#). For Plus/Premium Scholarship Provider annual dues see the chart below:

<u>Membership Level</u>	<u>Annual Dues</u>
Plus Provider	\$1,500

Plus/Premium memberships can be customized to each member's budget and communication needs. For example, along with annual dues, include scholarships for NSPA memberships and/or conference registrations. The scholarships would be available to public charities or public institutions with financial need. This supports scholarship giving at its best and the NSPA by involving more scholarship professionals.

A grant-in-lieu of membership dues is also an option. For example, along with annual dues, include an unrestricted grant for the NSPA to build capacity and enhance its support to scholarship providers.

Individual Affiliate – Annual Dues: \$500

An Individual Affiliate Membership is granted to a small business with 1-2 employees (not-for-profit or for-profit) which is engaged in a field related to scholarships or higher education. Individual Affiliate members may or may not award scholarships as one component of their business. Companies with 3 or more employees should apply for the **Affiliate** membership.

Affiliate - Annual Dues: \$1,500

An Affiliate Membership is granted to a business (not-for-profit or for-profit) which is engaged in a field related to scholarships or higher education. Affiliate members may or may not award scholarships as one component of their business. These national, regional, or online entities may provide resources to students and families in the areas of scholarship directories or matching services, college preparation and success tools, and other higher education financing options such as student loans. Entities in this category may also provide service-related resources for scholarship providers such as

software, scholarship administration development, and research and/or evaluation services. Typical Affiliate members may include free scholarship listing and/or matching services, student loan providers, college recruiting or admissions related services, businesses that offer online scholarship applications, scholarship administrative services, and proprietary software. Membership includes member benefits for unlimited number of individuals from each member organization.

Premium Affiliate – Annual Dues: \$6,500

Premium memberships give NSPA members a way to gain more exposure for products and services among scholarship providers, as well as a way to contribute to the enhancement and development of member benefits. If your entity is interested in this expanded membership to support the NSPA and the scholarship sector, three levels are available that include additional benefits. A complete description of Member Benefits may be found [here](#). For Premium Affiliate annual dues see the chart below:

NSPA members may not market or otherwise send information about their products or services by using any NSPA contact lists, except in compliance with any applicable NSPA policies and procedures (including without limitation any restrictions on use of the NSPA Broadcast E-mail service). One exception is a webinar led by Premium Affiliate member (s) to NSPA members if applicable.
