The Scholar Snapp data standard was developed by the Michael & Susan Dell Foundation in 2008 to help reduce the time it takes students to complete scholarship applications. With the Scholar Snapp solution, students save time by reusing their application information from one application to another. This frees them up to spend more time on essays and other information that will ultimately help you find the most qualified candidates.

About Scholar Snapp

“Snapp” Your App

The Scholar Snapp[®] solution is a free, simple to use data standard that allows students to reuse their application information — including contact information, essays, transcripts, etc. — from one scholarship application to another thereby streamlining the college scholarship application process.

The Scholar Snapp solution simplifies the scholarship application process by allowing students to automatically reuse their basic information for scholarship applications by syncing data from the Scholar Snapp website.

The Scholar Snapp website helps applicants identify scholarship providers that accept Scholar Snapp data and practice building a quality scholarship application. It also allows scholarship providers to synchronize their application with the Scholar Snapp data standard dynamically.

What does the Scholar Snapp solution do:

- It is available to students and scholarship providers at no cost.
- It saves students time by reusing their data across more scholarships and applications.
- It includes a website where students can practice building their best application.
- It helps students find scholarships they can apply to using ScholarSnapp.org
- It synchronizes in real-time via API for flexibility and ease of adoption.
- It contains more than 300 data fields including essays, recommendations, video uploads, etc.
- It is flexible enough to synchronize just a few data elements within an application or many data elements.
- It puts students in control of their data.

What does the Scholar Snapp solution not do:

- It does not award any scholarships or financial aid directly.
- It does not share any data without permission.
- It does not charge any membership or account fees.
- It does not sell any data, anytime, anywhere.

How Can You Get Involved:

Apply to participate as a Scholarship Providers on Scholar Snapp[®] central by completing an application form through this link: <http://bit.ly/1IBP6cP>
