WE ARE SOUTH CAROLINA’S DIVERSE COMMUNITY OF WATER PROFESSIONALS WHO BELIEVE IN PROTECTING OUR STATE’S WATER.

OUR MISSION

Promote and advance the value of water and the water environment as a profession

Benefit our state through protection and enhancement of the water environment

Deliver quality, affordable and beneficial services and training to our members

WHO ARE WE?
Our community of professionals is from various fields including:

- Water and wastewater treatment, distribution, and collection systems
- Stormwater and Industrial Engineers
- Engineers, consultants, regulators and product suppliers

BENEFITS OF MEMBERSHIP

Education and Resources
- Annual subscription to The Journal, the official publication of the WEASC and SCAWWA
- Access to continuing education opportunities and scholarships
- Reduced registration rates for workshops and conferences, including the South Carolina Environmental Conference (SCEC)
- Local and statewide professional networking events

Advocacy
- Statewide and national advocacy for water organizations
- Building alliances with other organizations and entities to benefit the water environment of our state
- Access to programs that aim to advance science and engineering through protection and enhancement of the water environment

OUR PREMIER EVENT
SCEC is held each year in March, in Myrtle Beach, South Carolina. The conference features over 1,600 attendees, 200 vendor booths, 160 technical sessions and the opportunity to earn 12 hours of CEU’s for eligible licenses.

WHY GET INVOLVED?

Professional Development
- Further your industry knowledge with seminars, conferences and educational opportunities
- Earn credits towards obtaining or maintaining your environmental license(s)
- Get involved on a volunteer committee to meet industry peers, contacts and potential clients or employers

Build a Name for Yourself or Your Organization
- Help grow your business by meeting potential clients, finding new talent, or by increasing your name recognition in the industry

Find Your Passion
- Develop meaningful relationships with other likeminded industry professionals
- Discover new opportunities to educate others or help the environment
- Love what you do! We have volunteer opportunities for every background

HOW TO GET INVOLVED?
