

Does your company exemplify Workplace Excellence?

We want to know!

Nominate them today!

UT San Diego and San Diego SHRM in 2013, for the first time ever, will be recognizing San Diego's employers of choice through the Top Workplaces award program. This expanded awards program builds upon the historic success of the Workplace Excellence Awards by including an employee feedback element. Being an employer of choice remains a premier accomplishment and provides a competitive advantage for any organization, regardless of the economic cycle or employment market. Now, with this updated award program, best HR workplace practices can be independently recognized for both their business value and their contribution to the individual employee's experience. Nominate your organization today as a Top Workplace!
