Welcome to the SES October 2017 Webinar

Standards Make Cities Smarter
October 11, 2017 from 1:00 – 2:30 pm ET

Guest Speakers

Christophe Colinet, Smart City Project Manager - City of Bordeaux

Chris Greer, Senior Executive for Cyber Physical Systems, Director of the Smart Grid and Cyber-Physical Systems Program Office, and National Coordinator for Smart Grid Interoperability at NIST

Patricia McCarney, President and CEO of the World Council on City Data (WCCD) and is a Professor of Political Science and the Director of the Global Cities Institute at the University of Toronto, Canada

Simin Zhou, VP & Managing Director, UL Ventures, UL LLC

Moderator
Ron Jones
What does Smart Cities mean to you?
What is the biggest misconception when smart cities is mentioned?
What do you believe are some key factors in the success of any smart city initiative?
How can standards be used to encourage industry, consumers, etc., about the various aspects of concerns with smart cities?
Can you share some examples where standards development has helped?

Any examples of when standards development was a hindrance or didn’t go well?
Questions?
