

# SETAC EUROPE

Environmental Quality Through Science®

## NOMINATIONS COMMITTEE

Do you think SETAC is a GREAT society to contribute to? Do you wish to influence the governance of SETAC Europe? Do you have ideas about the future leadership of SETAC? Then, please join the Nominations Committee!

### What Do We Do?

This Committee is chaired by the immediate past president. With the support of the SETAC Europe Office its tasks are:

- Recruitment and nomination of candidates for the SETAC Europe Council. Elections will take place during the General Assembly held in May each year. Voting insures the balanced tripartite composition of the Council. The Nominations Committee checks candidates for their eligibility and prepares the list of candidates representing the different sectors (academia, government and business).
- Recruitment and nomination of candidates for the incoming vice president of the SETAC Europe Council.
- Recruitment and nominations of candidates for the treasurer of the SETAC Europe Council. Elections will take place every three years.

### What Is Your Time Investment?

The Nominations Committee has regular conference calls to align the activities of the recruitment of candidates. You are expected to have an active attitude exploring your networks for potential candidates.

### Come and Join!

We have vacancies for student members and full members of the SETAC Society. Check out our website or contact Anne Alix, the Nominations Committee Chair: [anne.alix@corteva.com](mailto:anne.alix@corteva.com).
