

## SETAC Europe Science Committee

### Report of activities 2018

The purpose of the Europe Science Committee is to provide guidance, direction and assistance to the Society in addressing technical issues with the objective of ensuring overall scientific excellence of SETAC and its members. The Science Committee works closely, and coordinate its activities, with other SETAC Europe and SETAC World Committees and Interest Groups to ensure that it is aware of all technical and scientific issues pertinent to the Society.

#### Actions conducted in 2018:

- Identification of potential topics for SETAC Europe meetings (SESSS, STM or WS)
- Review of the SESSS14 proposal on soil biodiversity
- Review of an Effect Modelling Hackathon for Helsinki SETAC Europe annual meeting
- Review of an API (Active Pharmaceutical Ingredients) special session for Helsinki SETAC Europe annual meeting
- Review of the ALLEA code of conduct for research integrity organized by SETAC Europe
- Promotion of exposure assessment and collaboration with ISES (International Society of Exposure Science) Europe
- Initiate contact between MIA group (Modelling & Integrated Assessment) chair and SETAC EMAG Interest Group chairs for a joint session at WATERMATEX in 2019
- Continued action with EUROTOX to organise an AOP event in 2019
