

# INTEREST GROUP Wildlife Toxicology

## Mission

- Serving as a focal point and neutral platform for collaborative identification, resolution and communication of wildlife toxicology issues.
- Stimulating critical evaluation and discussion to establish best available practices in wildlife ecotoxicology.
- Providing scientific guidance and support to foster effective environmental decision making.

## Current Projects

- Planning for a Technical Workshop on integrating ecotoxicology with conservation and risk assessment
- WTIG Newsletter
- Suggestions and new ideas are welcome.

## Join Us!

### Supported Sessions:

Wed PM: A Risky Life History: Contaminant Threats to Scavenging Wildlife

Thurs AM (Liffey A; 830-1005): Wildlife Ecotoxicology: From Sub-lethal Responses to Adverse Effects at the Individual and Population Level

Thurs AM (Liffey Meeting Room 2; 830-1225): Impact and Trophic Transfer of Chemical Pollutants in Food Webs Within and Across Ecosystem Boundaries

Thurs AM (Liffey A; 10:50-12:25): Contaminants in Highly Exposed Wildlife: Interactions of Contaminants, Climate Change, and Other Environmental Stressors

### Meetings:

WTIG Open Meeting: Wednesday May 6 | 18:00 – 19:00 in Liffey Meeting Room 1
