

APPLICATION FORM
2019 DR. GUYLÈNE PROULX, OC SCHOLARSHIP
DUE MAY 17, 2019

Scholarship Distribution

There will be one scholarship, which will be awarded up to \$5,000. The funds will be distributed with \$1,000 of it going to the supporting faculty member and the remainder to the student. Should no qualified application be received during a specific year, no scholarship will be awarded.

Qualifications

The scholarship will be awarded to an undergraduate, graduate, or doctoral student undertaking a research project in the field of human factors or human behavior related to fire or emergencies, or to the integration of human factors or human behavior into fire protection engineering. The student may be enrolled in any field of study provided the research relates to people in fire or emergencies. SFPE encourages diversity in applicants and submissions from all geographic regions.

Student Application

The student applicant must submit electronic documentation of the following.

1. Full name of the applicant.
2. Applicant mailing and email addresses.
3. A description of the project (max 1000 words) which illustrates how the research relates to people in fire or emergencies, or to the integration of human factors or human behavior into fire protection engineering. Preference will be given to projects which recognize and are consistent with the SFPE Research Roadmap. The project will be evaluated based on its technical quality, clear methodology and expected outcomes. (60%)
4. A letter from the faculty member who will be supervising the research which must include: a) support of the project and the applicant, b) the qualifications of the faculty member in the field of human factors or human behavior, or the integration of human factors or human behavior into fire protection engineering; and c) the successful supervision of other students undertaking related research projects. (5%)
5. Evidence of the applicant's university academic achievement in the form of transcripts or similar official documentation as well as publication record, especially for doctoral students. (10%)
6. Evidence of the applicant's involvement in professional or non-professional organizations, and any involvement with the profession or the community at large, illustrating leadership and volunteerism (max 250 words). (10%)
7. Evidence of the applicant's public presentations of research, or other public presentations not necessarily related to research or the profession, illustrating communication skills (max 250 words). (5%)

8. A commitment to present the completed research to a professional body in a public forum (such as a conference, workshop, seminar, or webinar) and to publish the work (max 250 words). (10%)
9. Name and brief biography of the student as the nominated scholarship recipient (max 250 words).

Application Deadline

Applications must be received by May 17, 2019.

Evaluation and Awards

Applications will be evaluated by an international panel of subject matter experts in the field of fire protection engineering and human behavior. The panel will evaluate the applications against the criteria noted above and make a final award recommendation to the SFPE Foundation's Board of Governors. Award decisions are final and not subject to appeal.

The applicant has no business interest in the nomination and that applicant is not a part of the Nominating Committee.
