

Cutaneous Lymphoma Catalyst Research Grant

CALL FOR PROPOSALS

The Cutaneous Lymphoma Foundation (CLF), with support from The Leukemia & Lymphoma Society (LLS), is pleased to announce that we are now accepting applications for the inaugural year of the **Cutaneous Lymphoma Catalyst Research Grant**, a new funding initiative as part of our Research Awards Program (RAP), the first program of its kind dedicated exclusively to funding cutaneous lymphoma research.

The Cutaneous Lymphoma Foundation's mission is to support every person with cutaneous lymphoma by promoting awareness and education, advancing patient care, and facilitating research.

To help achieve our mission, the Foundation's RAP will support investigators interested in conducting innovative cutaneous lymphoma research designed to investigate the causes and improve treatments, clinical care and quality of life for patients. Discovering new avenues for better therapies and, one day, a cure for cutaneous lymphoma are key aims of this program.

Submissions due no later than September 30, 2019.
