2019 ISSA Excellence in Pavement Preservation Award

Eligible Nominations:

Each year, the International Slurry Surfacing Association will recognize and honor public officials, engineering firms or agencies that have made outstanding contributions to the Pavement Preservation industry. The award is presented to an Owner/Agency or Engineering firm that has been a champion in the promotion, use and success of pavement preservation applications represented by ISSA (slurry surfacing, micro surfacing, chip seal, cape seal and crack treatment).

Nominating Criteria:

This award has been established to recognize Government Agencies or Engineering firms that have successfully utilized or championed ISSA pavement preservation technologies as part of their pavement network strategy to achieve enhanced pavement performance, reduce pavement life-cycle cost, use eco-friendly products, and/or maximum use of limited budgets. The nomination can be based on the overall pavement management program established by the agency, a specific pavement preservation project managed by the agency or both.

All nominations must be submitted by a member of the ISSA. Submissions must be completed on the *ISSA Award for Excellence in Pavement Preservation* form.

The following rules will govern the selection:

1. The nomination ballot must be completed in full and delivered with supporting documentation to ISSA Headquarters by **November 30, 2018**.
2. Pavement management programs and or specific projects should include the disciplines of work promoted by the ISSA; Slurry Seal, Micro surfacing, Chip Seal, Crack Seal, Combination Treatments such as Cape Seal or all of the treatments used individually in a program or project.
3. Nominations must be submitted on ONE power point file with the following required information:
 - a. Name, business address and contact information of ISSA nominating member
 - b. Name, business address and contact information of Agency/Engineering Firm being nominated
 - c. Statement outlining the reasons the submitted nomination should be recognized.
 - d. Summary of the project/program with details and any key discussion points relating to its success.

- e. Include special features and details about the project / program, specifications, quality control / assurance standards, innovation, research, challenges, strategic alliances, cost savings, any funding data that benefits the story. History of Nominee's involvement in the program/project and past involvement in the pavement preservation program.
 - f. Suggested but not required for award; high quality photographs suitable for publication showcasing the application process and before and after construction.
4. Late or incomplete nominations will not be considered
 5. Nominations will be forwarded to the ISSA Awards Committee.
 6. Notice of Intent to Award will be issued to each approved nominee by January 2018.
 7. Winning Nominee(s) will be notified following final approval and presented with the award at the upcoming Annual Meeting.
