

Request for Research Support at SIS Bio-Skills Labs

Any presentation or publication of research findings that emerge as a result of research conducted, in whole or in part, at an SIS bio-skills lab must include appropriate attribution of SIS and the manufacturer of the machines used, if applicable. Additional terms of agreement may apply.

1. **Date of Request:**
2. **SIS Member Name:**
3. **Research Proposal Title:**
4. **Type of Support Requested:** Access to lab equipment, cadavers, and consumable materials only at an SIS activity that does not require additional time beyond the activity's agenda.
 Additional lab rental time or use of lab equipment, cadavers, and consumable materials at an SIS activity that extends beyond the activity's agenda.
5. **Brief description of the research study/project. Include a step-by-step description of when and how the research will be performed at the SIS bio-skills lab. Describe plans for the data, including analysis and publication or presentation.**
6. **Type of Course Requested:**
7. **Date of course(s) you are hoping to attend:**
8. **How many cadavers would you require or prefer?**
9. **How many C-arms + techs would you need?**
10. **Do you require any additional machines, i.e. ultrasound and others, limited to those that typically would be available at the activity? If so, type and how many?**

11. **Lab Rental – how long do you anticipate needing the lab space? Describe the minimum and maximum time.**

12. **Consumable Materials – what other materials can you anticipate needing, e.g., needles, gloves, probe covers, etc., limited to those that typically would be available at the activity.**

13. **Will you need assistance from SIS onsite staff? Describe amount of time needed and type of assistance required.**

Comments:

14. **Describe other sources of funding or support that you have secured for this project.**

15. **Additional comments:**

Terms of Agreement:

- The Spine Intervention Society's name will only be used in the methodology description of the study to acknowledge the granting of in-kind access to SIS resources. The Spine Intervention Society maintains strict control over the use of the SIS name and logo and requires prior approval on all its uses, except for inclusion in the methodology description.
 - The investigators indemnify the Spine Intervention Society from any and all liability related to the project.
-

For Internal Use Only

Type of Request:

- In-kind – no direct costs
- Grant – use of resources with additional costs
