## SPOTLIGHT ON EMERGING CONTRACTORS

### Dalrymple Construction Services

Dalrymple Construction Services (DCS) is a DBE and woman-owned firm in Garden City, ID, that provides construction management services. The owners, Kimberly and Joseph Dalrymple, who have been in the construction industry for 30 years, attended the SFAA/ US DOT Bonding Education Program (BEP) in July 2014. At the time, DCS was not bonded. After a couple months of receiving one-on-one assistance as part of the BEP from a bond producer with Pinnacle Surety, the company obtained bonding in the amount of \$200,000 single/ \$400,000 aggregate.

Shortly after completing the BEP, DCS was awarded its first public works contract and now are positioned to win more work going forward. “Thanks to everyone for the awesome information [presented] at the BEP workshops. We learned a lot and are much more prepared for the future,” says Kimberly Dalrymple.
