RE: CODING CHANGES
     Mercantile and Governmental Entities
     Commercial Crime Policy -
     Discovery and Loss Sustained Coverages

The Surety Association of America has filed in all states, where required, several new insurance products. This filing will apply to all bonds and policies written on and after April 1, 1997. To capture statistical data, new and revised statistical codes for discovery coverage and loss sustained coverage have been established.

Enclosed with this letter are copies of the changes made to the SAA Fidelity and Surety Statistical Plan (Page 32) and Actuarial Edit Definitions (Error Code 135). Please replace the existing statistical plan page and edit definitions pages with the enclosed. Final printed pages of the statistical plan will be distributed at a later date.

New or revised material is indicated by a star (S). Within the edit definitions, all new valid coverage codes are listed in bold and italic. Also, effective April 1, 1997, we have deleted coverage code 98 from the edit definitions where that form of coverage cannot be written (code 98 is shaded and underlined).

For additional information about discovery coverage, please refer to the mailing from Robert Olausen, dated January 23, 1997, that was addressed To All Companies - Chief Bonding Officer and Fidelity Department.

If you have any questions, please do not hesitate to contact me at (908)632-4867.
