

# Keeping You and Your Customers Safe During In-Home Visits

Do not offer to shake hands upon greeting/leaving.

Maintain recommended separation of 6 feet from customers.

Wear a cloth face covering when in public.

Wash your hands often (recommended 20 seconds) and/or use hand sanitizer (60-percent alcohol minimum)

If you need a signature, sanitize your pen or electronic surface before and after. This shows the client you have taken precautions.

Field techs should wipe down their door handle, steering wheel, gear shift and other frequently touched objects and surfaces.

If you are feeling sick (fever, shortness of breath), go home immediately.

Visit [www.cdc.gov](http://www.cdc.gov) for more information and precautionary measures during the COVID-19 outbreak.
