

**REGIONAL
CYBER
WORKGROUP**

Vision: To achieve a resilient regional infrastructure with the capabilities necessary to prevent disaster and respond to rapid and unpredictable demands of our rapidly growing digital world.

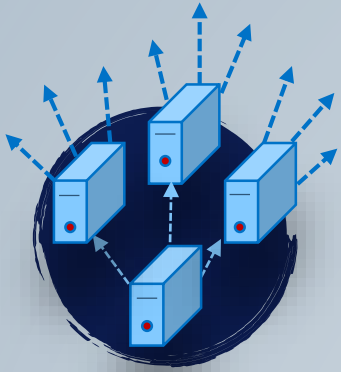

Objectives of the group: The Public Safety Cyber Threat Work Group will serve as the regional, multi-agency unit for securing technologies, identifying training and allocating personnel to support regional mitigation and recovery efforts for significant cyber incidents.

About Us

Mission: The Public Safety Cyber Working Group aims to achieve cyber resiliency for the preservation of life and property.

Problems, just to name a few...

Coordination

Prioritize

Collaborate

Organize

Solution

Provide an open forum for public sector law enforcement, IT, and emergency management professionals to discuss gaps, opportunities, and trainings to enhance cyber threat vulnerabilities.

Growth Strategy

How will we scale in the future?

Phase 1 2020

Engage Professionals

- Grow membership and participation regionally
- Understand foundational knowledge for incidents and disseminate information
- Develop secure method of communication
- Develop regional projects to support local jurisdictions

Phase 2 2020-2021

Utilize Partnerships

- Understand needs of law enforcement professionals during cyber incidents
- Create processes to assist jurisdictions for response and recovery operations
- Highlight incident planning and collaboration
- Continue to develop regional projects for potential funding with emphasis on elections

Phase 3 2022

Validate

- Test regional processes and make adjustments based on lessons learned
- Continue to align with State and Federal priorities
- Continue to develop regional projects to support local jurisdictions
