

# Future-forward government: Transform state and local operations

From coast to coast, every state or city has its own unique dynamics and needs. Our advanced IT solutions are precisely tailored to support each community's needs of today and tomorrow.

NTT DATA has over 55 years of government expertise and a nationwide footprint. Our flexible, future-forward solutions streamline operations, fortify networks and deliver impactful outcomes.

Partner with us to harness transformative technology and successfully advance your agency's mission.

"The successful completion of the [cloud] migration demonstrates the Commonwealth's strong cross-agency partnerships and shared commitment to advancing government technology for the benefit of all residents."

— Bob Osmond, CIO of the Commonwealth of Virginia
