6 months

Companies recover their Glean investment in under 6 months.

"We built 'askT' as an employee concierge for all our employees in Germany. AskT combines the world knowledge of a LLM with thousands of knowledge bases- from finance, HR, and legal- all in one tool."

Jonathan Abrahamson
Chief Product & Digital Officer

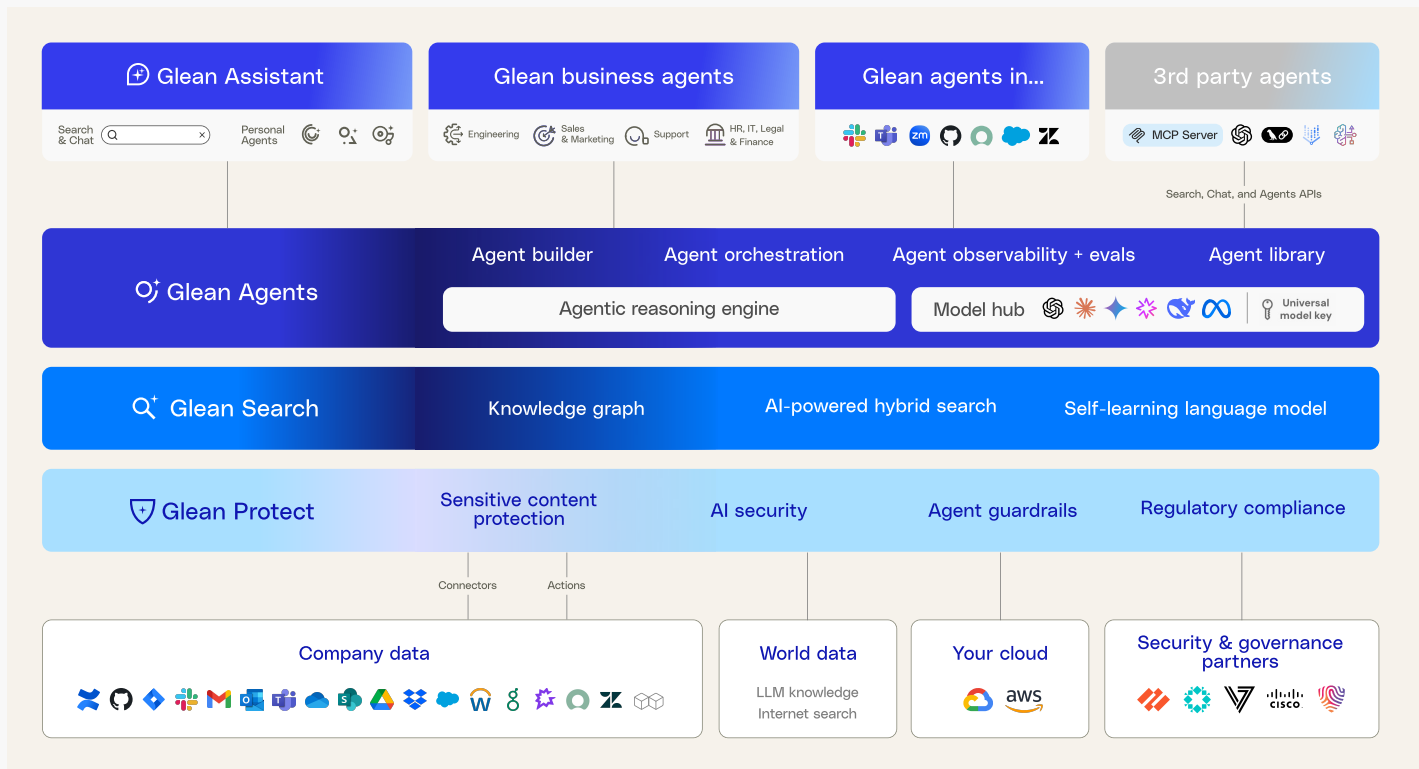

bill

"Calibrations, email, presentations, content creation, etc. I've seen stats that say Glean saved people 2-3 hours of time a week, but I know it's saving me a lot more time than that, and if you're not using Glean today, you really should be."

Steve Januario
VP of Technology

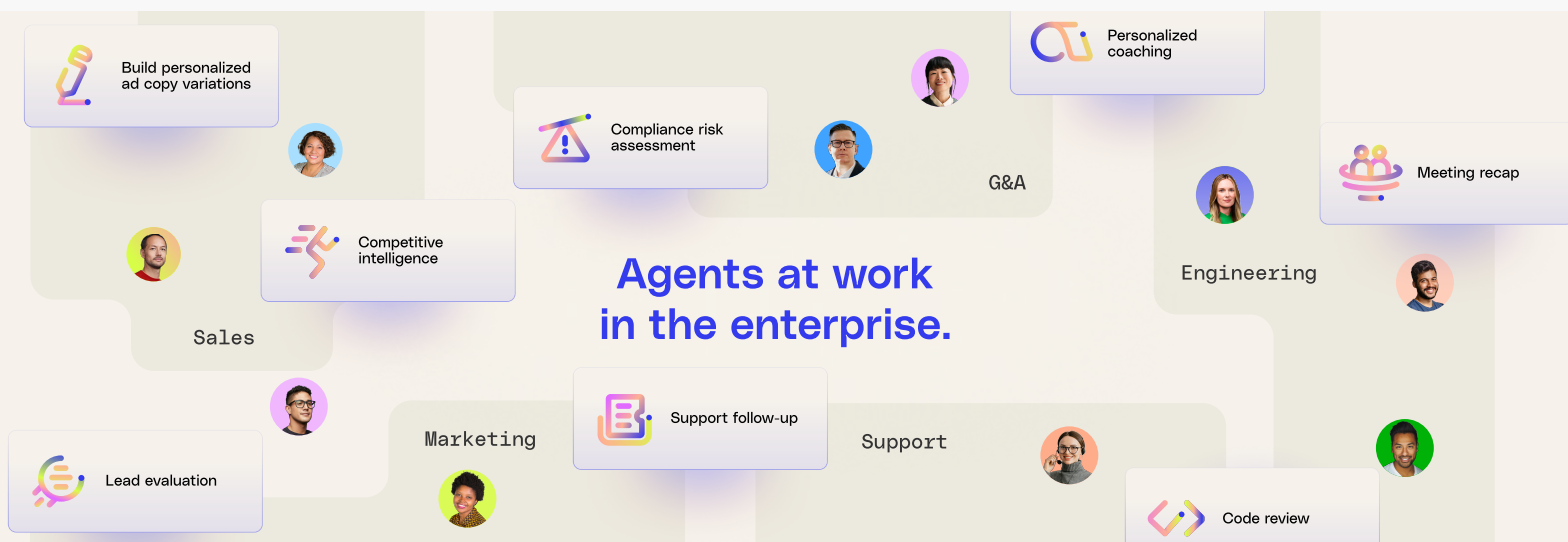

One centralized agent platform for quickly and securely deploying AI in the enterprise.

Connect, secure, index, and understand your enterprise data on one centralized AI platform.

Generate highly personalized answers grounded in universal knowledge— your company's structured and unstructured enterprise data and internet data.

Build agents that take autonomous actions using simple, natural language prompts.

Agents at work in the enterprise.

Join the hundreds of enterprises putting AI to work with Glean.
