

A Psychologist's Toolkit to Offering Telepsychology

Given the current, evolving situation with COVID-19, the Texas Psychological Association has prepared a list of resources to help licensed psychologists practice social distancing by moving their practices online.

AREN'T SURE WHERE TO START? TRY A WEBINAR!

[Telepsychology Best Practices 101 Series](#) (linked)
For a limited time, this program is available **FREE** of charge.

The Telepsychology Best Practices 101 training series is an introduction to the ins and outs of real-world telepsychology. Each 2-hour webinar details the competencies needed for telepractice, including critical ethical, legal, clinical, and technical issues, together with reimbursement strategies. The series discusses practical ways to leverage a variety of technologies with a focus on video conferencing.

FREE with coupon code: **COVID**

In this webinar, Dr. Marleen Maheu:

- Helps you understand why evidence-based telehealth enjoys professional credibility and is growing so rapidly, particularly in the wake of the COVID-19 virus outbreak
- Outlines how telepractice can help lower overhead expenses for your clinic, agency or independent practice
- Describes how federal HIPAA & HITECH agencies, regulatory boards, professional associations, malpractice carriers, reimbursement sources and clients/patients view home-based practice

[Telebehavioral Care](#)

With over 10 years of experience delivering telebehavioral care in Texas, Texas A&M Health Telebehavioral Care helps professionals successfully integrate the service into their practice. Take courses on-demand:

- Law and Ethics of Telehealth
- Telehealth 101
- Managing Crises and Emergencies in Telehealth
- Multicultural Aspects of Rural Health and Treatment Considerations
