

# 2018 Fall Technical Summit

August 28 - 31, 2018

Hyatt Hill Country

San Antonio, TX

*The Celebration Continues*

Texas Floodplain Management Association

Join over 500 floodplain managers, administrators, engineers, and stormwater specialists from cities, counties, private sectors, academia, state and federal organizations as we continue to celebrate 30 years of TFMA. This event attracts the industry's leading professionals and key decision makers whose innovation and expertise are shaping the future of floodplain management in Texas.

Objectives are:

- To present high quality and relevant education in industry areas such as floodplain management, stormwater, engineering and water resources.
- Return to our roots by having social events that will enhance networking and add that “family” feel to the conference.
- Create a successful event that supports the attendees educational needs, and allow them to take back information they are able to use in their day to day operations.

As an attendee, you will be able to choose from over 20 hours of accredited continuing education hours with sessions carefully tailored to your needs in a variety of formats. Continue reading and you'll see why TFMA has become known for providing some of the BEST conferences in the nation.

### ACCREDITATION STATEMENT

The Texas Floodplain Management Association is ASFPM accredited to provide continuing education credits for Certified Floodplain Managers (CFM®.) Upon final program review, Texas Floodplain Management Association will designate this program for a maximum number of CEC hours and participants should claim only the credit commensurate with the extent of their participation in the activity.
