

Kimberly Dewailly

Position: Region 10 Director

Describe your qualifications, past TFMA involvement, etc.:

I have been a CFM since 2007. I have always been interested in getting more involved with the organization. Over the past 2 years, I have begun participating in training sessions. I attended a training to learn how to train, and then presented at one myself last year. I've also given a presentation at the TFMA regional event this past year

Summarize why you think you would be the best candidate for this role.

I am interested in educating the public on flood safety and awareness, and in recruiting new CFMs. I'm also interested in keeping all current CFMs informed about TFMA events, and training sessions. I am interested in promoting education within the schools in Region 10, and all of Texas. I want to help TFMA develop their education programs, and outreach programs.
