Demographics

As a service organization as well as the administrator of a number of granting programs, it is important to us and the panel to have the most complete picture of our field. To that end we are asking the following OPTIONAL questions. Answers to these questions primarily inform our future outreach activities, application process, guidelines, and also allow us to report a complete picture to the funders of our granting programs.

These questions, while not in TBA’s priority criteria, may still be used to inform the panelists choices at a particular point in the decision process in an effort to ensure that the overall grantee pool is diverse in many ways (type and scope of work, experience, education, geography, and demographics of all types).
