WHAT ARE PARENTS SAYING ABOUT MRI?

They explained the whole procedure to him and let him try it all on before experiencing it. They did a trial for him.

They educated us from the get go. They were very informative. They included my husband and I, and my child in every decision that was made and everything that was going on. They almost went above and beyond keeping us informed. They were very thorough. I can see why they are ranked 3rd in the country!

The efficiency and professionalism. They also seemed to care about me as a person. I would recommend them to my friends.

They are nice people down there and knowledgeable. They just show concern.

The explanation was very clear and it was a friendly environment. They did this in a timely manner. Very good experience, nothing to complain about. They made us feel comfortable and they provided quality care.

Seamless flow of activities, smiling faces and sincerity.

Explaining to me the process. I felt prepared I wasn't scared about the test but I was interested in what was going to happen. The most important part was them explaining the results, and what that would mean for me from a lifestyle change prospective.

They were patient with my son because he kept moving around during that test. They made him feel very comfortable and he was not afraid to ask questions.

My grandson was apprehensive about being claustrophobic in the tube and they made him very comfortable and talked to him throughout the testing, explained the banging and the whole nine yards, I was even in the room with him and I was reading a book and just went to sleep so it was great, he wasn't scared at all. Everyone was very professional and courteous and I always recommend Children's.

They took pride in what they were doing. They made us feel comfortable. They were more interested in her well-being than just their job. Most people just care about their job.

The fact that they verified his name and who he was and the procedure. I appreciated that everything was ready and they were very thorough in explaining what to expect and how he should be dressed. I would have to say I was very satisfied. It is an excellent hospital. They are very thorough. Just keep up the good work. They provide good quality care and I just really appreciate that.

Before the procedure they comforted him. They let him know that it was going to be okay. They made him comfortable.
