## ***Patient Experience Journal* Releases Spring 2019 Issue**

Published in association with The Beryl Institute, Volume 6, Issue 1 includes patient experience improvement research from global perspectives across healthcare settings

**Dallas, TX (April 23, 2019)** – The Beryl Institute announces the publication of [Volume 6, Issue 1](#) of *Patient Experience Journal (PXJ)*, a peer-reviewed, open-access journal published in association with [The Beryl Institute](#). Read in over 200 countries and territories, *PXJ* is committed to disseminating rigorous knowledge and expanding the global conversation on evidence and innovation on patient experience. Grounded in our [core principles](#), *PXJ* engages all perspectives, with a strong commitment to [Patients Included](#).

Published in association with The Beryl Institute, Volume 6, Issue 1 includes [19 articles](#) from 83 contributing authors representing commentaries, personal narratives, research studies and case studies and covers a selection of stimulating topics such as:

- Reframing the conversation on patient experience: Three considerations
- Exploring interventions to increase primary care providers' use of self-management goals
- Can doctors improve the patient experience by rearranging the furniture and equipment in their office? A video recorded simulation
- How have Patients' Experiences of Cancer Care Been Linked to Survival? A Systematic Review
- "Can I still get a tattoo?" Patients' experiences across the clinical trajectory for metastatic melanoma: a dynamic narrative model of patient journey
- A case study of the patient wait experience in an emergency department with therapy dogs

Submissions also represent a broad range of global organizations and institutions including The University of Notre Dame Australia, University of Liverpool, Public Health Department, College of Health Sciences, Saudi Electronic University, Riyadh, Saudi Arabia, Lunenfeld-Tanenbaum Research Institute, Sinai Health System & University of Toronto, Ontario, The University of Texas M.D. Anderson Cancer Center, and many more.

"As we launch Volume 6, we remain inspired by the breadth, depth and rigor that shapes the pages of *PXJ*," said Jason Wolf, Founding Editor of *PXJ* and President & CEO of The Beryl Institute. "This growing collection of contributions from around the world reinforces the power of coming together, of sharing resources, and of community and continues to push the boundaries of the experience conversation further with each issue. There is much to be gained in our capacity to share our learning and to learn from what is shared."

To access Volume 6, Issue 1 of *PXJ*, visit: <http://pxjournal.org/journal/>.

*PXJ* publishes twice annually in April and November. Submissions are accepted on an ongoing basis, however submissions for our annual [special issue](#) must be received by May 1, 2019. All submissions should adhere to the requested [submission types and author guidelines](#). We invite you to join to the conversation.

###

About The Beryl Institute:

[The Beryl Institute](#) is the global community of practice dedicated to improving the patient experience through

collaboration and shared knowledge. The Institute [defines](#) the patient experience as *the sum of all interactions, shaped by an organization's culture, that influence patient perceptions across the continuum of care.*

About *Patient Experience Journal*:

[Patient Experience Journal](#) (PXJ) is an international, multidisciplinary, and multi-method, open-access, peer-reviewed journal engaging research, proven practices and a range of perspectives, inclusive of patients and families, focused on understanding and improving patient experience. PXJ is designed to share ideas and reinforce key concepts that impact the delivery of service, safety and quality and their influence on the experience of patients, residents and families across healthcare settings.
