Benefits of Membership

We are very proud to support nurse practitioners and nurse practitioner students by providing valuable services, resources, education and networking opportunities needed to be successful and to protect and promote nurse practitioner practice.

Legislative & Public Policy

- **Professional Advocacy** - The NPA is the only state-wide association working to advance and protect your practice in New York. Our first success was in 1988 when NPs won the legal right to practice in New York. Over the years we have had many successes in removing barriers to NP practice. In 2017, we had 3 out of 4 legislative priorities signed into law; the AED Bill, DNR (Do Not Resuscitate) Bill and NP Civil Service Bill. **Your membership will help strengthen our collective voice in the State Capitol and continue to help remove barriers to NP practice.**

Education & Networking

- **Local Membership** - Members also become part of a local group and region when they join. There are twenty one local groups within seven regions to serve members on a local level. The regions and groups are run by nurse practitioner members who volunteer their time to provide leadership, education, meetings, teaching events, networking and more. You can learn, network, and earn contact hours with nurse practitioner colleagues in your area. *Networking brings about many possibilities!*
- **Education** - We offer conferences, events and meetings at state, local and regional levels. Our annual conference is attended by hundreds of NPs and members receive preferred pricing. Members can also receive discounts on educational products through our strategic partners. To view complete listing of continuing education opportunities go to NPA website.

Journals, Publications & Communications

- **We Keep You Informed** - When there are changes or news that affects you, you will receive information including scope of practice, educational events, political, regulatory and career opportunities. When applicable we provide you with forms, links and other specific information.
- **Subscription to the JNPA** - You will receive The NPA's quarterly journal which includes New York State specific and national professional nurse practitioner practice news, clinical articles, updates from our local groups and regions, upcoming educational programs and more.
- **Subscription to NPA Insights** - The electronic newsletter of The NPA, is emailed to members each month. It contains professional practice information; legislative news and updates; members in the news; new and information from the association, and information critical to your practice in New York State.

Resources

- **Practice Resource** - Available to members who need information or have questions: scope of practice, management advice, risk management, required practice agreements, licensing, certification, professional conduct, Medicare, Medicaid and more. On The NPA website you will find resource guides, forms, instructions, state and national links, rules and regulations, news, contact information and much more. Should you need further information, clarification or have questions, call or send us an email. The NPA promotes ethical and professional practice for all NPs.
