United States Department of Labor
Occupational Safety Hazard Administration
Region 2

Mark Maddaloni, DrPH, DABT

Senior Managing Health Scientist
Stantec Inc.
New York, NY
Previously:
Toxicologist, EPA
Region 2 Risk Assessment

PRESENTATIONS

PRESENTATIONS

Lead poisoning is determined by measuring blood lead levels. Dr. Markowitz' Introduction will cover the importance of measuring and interpreting blood lead levels.

Since lead reaches blood after it is either eaten or inhaled, how do federal agencies set caps on how much lead can be in products, food, water, and air? How much lead exposure is too much?

This conference will have representatives, past and present, from the federal agencies responsible for setting these limits. They will share how they determine what is safe and what is too much.

PROGRAM

10:00 am–10:10 am

Welcome/Introductions

Morri Markowitz, MD and Nancy Redkey

10:10 am–10:30 am

Introduction to Setting Lead Standards

Morri Markowitz, MD

10:30 am–1:10 pm

Presentations:

Mary Jean Brown, CDC
Kellie Casavale, PhD, RD; FDA
Kristina Hatlelid, PhD, MPH; CPSC
Mark Levy, CIH, CSP, ROH; OSHA
Mark Maddaloni, DrPH, DABT; EPA

1:10 – 1:15 pm **Wrap Up**
