Mare research update*

Dale Paccamonti
School of Veterinary Medicine, Louisiana State University, Baton Rouge, LA, USA

Abstracts of the following recently published papers on the topic of reproductive function in mares were collected and summarized for those attending the equine track at the Society’s 2009 Annual Conference. The abstracts of these papers can be found at the PubMed website <http://www.ncbi.nlm.nih.gov/sites/entrez>, the CAB Direct website <http://www.cabdirect.org/> or the website of the journal in which the paper was published.

Keywords: Mare, research, review, reproduction

* Presented at the 2009 annual Meeting of the Society for Theriogenology, Albuquerque, NM.
