Mission Statement

The Theriogenology Foundation is a global resource that supports education and research in reproductive medicine; ensuring that future generations of animals continue to enrich our lives through service, companionship, and food for a growing human population while conserving our natural resources.

I've been on the phone since May, 1957. Inheriting the gift of gab was easy; learning how to downregulate it to allow for thoughtful listening has taken decades.

In 2013, your Foundation initiated a call to the American Kennel Club. We listened to their concerns involving canine reproductive health and collaborated with them to establish theriogenology residencies in three colleges of veterinary medicine.

In 2016, the Theriogenology Foundation (TF) phone line became a conference call with both the American Kennel Club (AKC) and the AKC Canine Health Foundation (CHF). Listening resulted in the CHF plans to administer new theriogenology residency grants with four US veterinary schools: Auburn University, The Ohio State University, North Carolina State University and the University of Pennsylvania.

In addition to our combined support of education, TF has encouraged CHF awareness of canine reproductive diseases as a focus of research funding. Dr. Marco A. Coutinho da Silva of The Ohio State University will study the Role of E. Coli Biofilm in Canine Pyometra. Endometrial samples from clinical cases of pyometra procured from multiple collaborating private practitioners throughout the country will be evaluated. If successful, demonstration of the presence of biofilm in the endometrium of bitches affected by pyometra could lead to development of new therapeutics targeted at the disruption of biofilm, resulting in improved treatment for canine pyometra.

At the Minnesota Department of Health, Tory V. Whitten, MPH and Joni M. Scheftel, DVM, MPH, will study brucellosis in canine rescue and shelter populations. Results from this study, An Epidemiological Study of Brucella canis, will help determine prevalence and raise awareness of this disease, identify risk factors for canine brucellosis, create prevention and control measures and aim to develop a diagnostic PCR test.

“The new grants will have a direct impact on the health and treatment options for dogs with these life-threatening illnesses,” said Dr. Diane Brown, CHF’s chief executive officer. “CHF is proud to continue to build a diverse research portfolio that helps advance veterinary medicine and biomedical science, furthering our understanding of both canine and human health.”

“We are proud to partner with the Theriogenology Foundation to continue our ongoing commitment to canine health research,” said Dennis Sprung, president and chief executive officer of the AKC. “Helping to cultivate future veterinarians and health researchers is essential to the wellbeing of all dogs. We look forward to seeing their contributions to canine wellness.”

Wonderful progress is made when people listen, talk, give and get. And you are never too young to start.

Our operators are standing by … thanks in advance for calling in your support!

Anita M. Migday, DVM, MS
President, Theriogenology Foundation
Dr. David E. Bartlett Award
for Lifetime Achievement in Theriogenology

Dr. Dickson Varner

Dr. Dickson Varner received his DVM Degree from the University of Missouri (1978) and master's degree from Texas A&M University (1990). Following graduation from the veterinary school, Dr. Varner was employed by Castleton Farms in Lexington, Kentucky for three years. He then completed a residency in theriogenology at the University of Pennsylvania and served as a lecturer in large animal reproduction at the same institution until 1985. Dr. Varner has been on the faculty at Texas A&M University since 1986, where he is presently Professor of Theriogenology and Pin Oak Stud Chair of Stallion Reproductive Studies. He is also a Diplomate of the American College of Theriogenologists (1984). Since earning his Diplomate status, he has been heavily involved with the ACT having served as the examination committee chair and as the College's Secretary (1992-1994) and President (1999).

Dr. Varner has been a leader in Stallion reproduction for over 30 years, traveling throughout the world evaluating and treating fertility problems in stallion. His primary research interests are in the areas of semen preservation, testicular function, and subfertility in stallions. He has developed several clinical applications in examining and preserving sperm. Dr. Varner played a pivotal role starting the stallion reproductive studies program at Texas A&M University CVM and his innovative research has helped position the CVM as one of the top research and clinical facilities for stallion reproduction in the world. In 2002, he was honored by the ACT as the Theriogenologist of the Year recognizing his outstanding achievement in the field of animal reproduction research.

TF Donor recognition

Contributions to the Theriogenology Foundation increase educational opportunities, support research and enhance the field of theriogenology.

Supporting our Future: Levels of Annual Individual Giving

**Genesis Society:** $5000 or more  
**Visionary:** $1000–$4999  
**Pathfinder:** $100–$999  
**Supporter:** $25–$99

Donors will be recognized in the Foundation publication THERiver.

Rocky Mountain Society

This Society recognizes donors who have made an annual commitment to giving at the Supporter Level or higher for five or more consecutive years. The milestone years for recognition in the Society are 5, 10, 15, 20 and 25 consecutive years.

The 10 year level is known as the Dr. S. J. Roberts Circle of the Rocky Mountain Society.

The 20 year level is known as the Dr. David Bartlett Circle of the Rocky Mountain Society.

First-time Rocky Mountain Society members, or those reaching new milestones, will receive by mail a RMS welcome letter and lapel pin denoting the milestone period of consecutive year giving.

1954 Society

This Society recognizes donors whose legacy gifts play a key role in securing the future of the Theriogenology Foundation. These donors have remembered the TF with a lifetime income gift or as a beneficiary of a will, trust, retirement plan, or life insurance policy.

The 1954 Society is named for the year in which the Rocky Mountain Society for the Study of Breeding Soundness in Bulls (now the Society for Theriogenology) was organized. Circles within the 1954 Society provide for additional recognition opportunities:

- **The Legacy Circle** honors donors whose cumulative lifetime giving totals between $60,000 and $100,000.
- **The Founders Circle** honors cumulative lifetime giving that totals between $100,000 and $150,000.
- **The Inventors Circle** honors cumulative lifetime giving that totals between $150,000 and $200,000.
- **The Fertile Circle** honors cumulative lifetime giving exceeding $200,000.

An appropriate plaque and lapel pin will be presented for each level of recognition. Members of the 1954 Society will be invited to attend a private stakeholders reception at the Annual Conference and will receive updates on Foundation giving news.

You choose how to give

**Planned Giving**

Planned Giving provides the opportunity to donate to the Foundation through your trust, will, and other assets as you choose, to leave a legacy for a cause you are passionate about. The “Plan-a-Gift” section on the TF website is particularly helpful for guidance on gift options. There are giving options for all levels and numerous tools for choosing the gift that best suits your needs. An attorney’s counsel is also recommended.

**Annual Giving**

Your yearly contribution can be used to sustain existing projects or spearhead new research to advance the science and practice of animal reproductive medicine. You determine your level of giving and direct your contribution towards education, research or achievement recognition. Every donation counts!

**Honor Gifts**

Honor gifts serve as a meaningful way to recognize someone special while supporting the important work of the TF. Acknowledge the accomplishment of a friend or family member with an honor gift. Celebrate a special event, birthday or anniversary in the life of someone important to you. Make a tribute to an animal which has made an impact in the life of someone you know. A letter acknowledging your gift will be sent to the recipient.

**Memorial Gifts**

A memorial gift can be made to recognize the loss of a beloved family member, friend or colleague. Memorial gifts pay tribute to the individual by affirming their passion for science, education and the continued advancement of knowledge in our specialty. The Foundation will notify a designated contact in writing to both acknowledge your donation and convey sympathy for their loss.

**Corporate/Club Gifts**

Corporations and organizations may contribute to the Foundation’s general fund or may restrict their donation to champion a specific project or species.

**Creative giving**

Use your creativity, motivation and commitment to launch a TF fundraising event through your hobby club, book club, sports team, office or service group. Share your personal achievements and passions for running, swimming, baking or biking by making it a fundraising event that includes friends and family.

**Therio Raffle Tickets**

The Annual Therio Raffle funds help support the TF and offers participants the opportunity to win a free registration to the next years’ Therio Conference, a three night hotel stay and event tickets. Only 100 tickets will be sold for $100 each. The drawing is held at the Therio Conference Awards Dinner, you do not have to be present to win. Available online anytime!

**Therio Auction Support**

Annually, the Foundation conducts a silent and live auction during the Therio Conference. This event has become a great fundraiser for the Foundation. If you cannot attend, you can submit a sealed bid form on any item you choose. Visit www.theriofoundation.org to view items and submit your sealed bid form.
2016 Therio Conference Fundraising Events

2016 Silent and Live Auctions
The 8th Theriogenology Foundation Silent Auction will be held this year at the 2016 Therio Conference. Books, textbooks, photographs, paintings, gift baskets, jewelry, novelty items, specialty wine and prized one-of-a-kind collectibles can all be purchased. These items are posted on the Foundation website for review. The Foundation's Live Auction will be held immediately following the Awards Dinner on Friday, July 29. Take a moment and review the items listed on these two pages; you can place a sealed bid if you are unable to attend. Proceeds from the auction will go to benefit students, residents, student chapters and others with travel grants, research projects and outreach.

Can't make it to the conference? - you can still place a bid on auction items
Take advantage of the online silent bid form for 2016 auction items. Just visit the Theriogenology Foundation website at www.theriofoundation.org and complete the sealed bid form on the items you choose. Your silent bid will be presented during the auction and you will be notified if you are the winner. Sealed bid forms will be accepted through July 24, so place your bid today.

Raffle Tickets
How would you like to donate $100 and possibly have your 2017 conference package paid for?
Raffle tickets are on sale now to raise money for the Theriogenology Foundation and the winner will receive a free conference registration for 2017 (in Ft. Collins, CO, August 2-5). Three nights of the winner’s hotel at the beautiful Hilton in Ft. Collins will be paid for, along with a travel stipend. Plus the winner will receive one Fun Night ticket and one Awards Dinner ticket, and the investment could be tax deductible. Tickets are available through the TF website, through the Therio Conference office or onsite at the registration desk. Only 100 tickets will be sold, get yours before they disappear!

2016 Live Auction Items as of 6/15/16

2016 Breeders Cup package for two
Donated by Dr. Tom Riddle
Dates of the 2016 Breeders Cup are November 4 & 5
Includes airfare to Los Angeles from anywhere in the Continental US serviced by Delta, tickets to sponsor seating both days of Breeders Cup, which includes the best seats at the track (Santa Anita) and all the food and drink in the sponsor chalet, and three nights lodging at a 4 star hotel. With sponsor tickets they would have some other perks like tickets to the Breeders Cup after party. Dates are November 4 & 5

One week stay at Seabrook House
Donated by Dr. Tom Riddle
Private island community featuring two championship golf courses, tennis center, horseback riding, new beach club, fitness & aquatic center. Amenity passes for four. Classic Southern beach house with 4 bedrooms, 3.5 baths. Near historic Charleston, SC named #1 tourist destination in US by Conde Nast. Choice of greens fee, dolphin watching boat, or horseback riding for two included.

Pulsator IV complete electronic ejaculator unit
Donated by Lane Manufacturing, Inc
Electronic Ejaculator complete unit; The Pulsator IV is the only machine on the market with a five-year warranty! It has three programs, manual, program, and learn, that allows the operator complete control during the ejaculation process. The complete package comes with the Pulsator IV, charger, power supply, one probe (your choice of size), two probe cords, scrotal tape, semen collection handle, 100 disposable cones, carrying case, and instructions.

High Mountain Luxury Home in Greensprings, Oregon
Donated by Dr. Gail Colbern
Four night stay in the Greensprings, a lovely mountain community east of Ashland, OR. The Greensprings is located in Southern Oregon, at an altitude of 3,000 - 5,000 ft. It is known for its history (the Applegate Trail and homesteading), logging, hunting, fishing and the independent character of its residents. Recreation includes fishing, hunting, boating, river rafting, hiking (the Pacific Crest Trail runs adjacent to the Colbern property) and horseback riding. Stay will occur on a mutually agreed date (the Pacific Crest Trail runs adjacent to the Colbern property) and horseback riding. Stay will occur on a mutually agreed date and includes a signed photograph of a Greensprings sunrise by Dr. Colbern. Also includes $100 Gift voucher to the Oregon Shakespeare Festival in Ashland. For more information on the plays, please see the Oregon Shakespeare Festival website at www.osfashland.org. Also includes a one-day wine tour in the Rogue and Applegate Valleys.
Sample of 2016 Silent Auction Items

Sea Glass Fine Art Photography Gift Certificate
Donated by Thomas Fallon
A limited edition twelve-inch fine art print selected from a wide variety of images. Or, apply the full value of your certificate to a larger print, canvas gallery wrap, or wall grouping from over 600 available. Image categories include landscapes, seacoast, still lives, architecture, flowers, city scenes, and found objects.

Apple/Onion Baker (with recipe card) and two complimentary tickets to Biltmore Estate
Donated by Accents on Asheville

Pottery Beverage Warmer with Cups-Heirloom pottery pitcher with warming stand
Comes with three large pottery mugs.
Donated by Dr. Dwight Wolfe

Print “The Innocent Never Perish” by Kareen Amarothis. This is a signed limited edition print. Intriguing ghost images in the picture.
Donated by Dr. Dwight Wolfe

Text book
"Large Animal Urogenital Surgery". New surgery text, signed by the author
Donated by Dr. Dwight Wolfe

Mad Cow Company Customized Spyderco Arrow Knife
Donate by Dr. Chance Armstrong

“1” Medium Quick Muzzle for Dogs; “1” Large Quick Muzzle for Dogs; “1” Large Quick Cat Muzzle
Donated by Four Flags Over Aspen, Inc

Kansas State University
by Sara Elves

The Student Chapter for the Society of Theriogenology at Kansas State University is proud to announce that they hosted their first artificial insemination certification course in April with the guidance of their faculty advisor, Robert Larson, DVM, Ph.D., DACT, DACVPM, ACAN. A three day course was led by David Grieger, Ph.D. with assistance from Luis Mendonça, MS, DVM from our College of Agriculture. There were fifteen students representing our veterinary classes of 2019, 2018, and 2017 in attendance with interests ranging from production medicine to zoo cryopreservation.

The first day focused on estrus synchronization protocols in dairy cattle and comparisons across both dairy and beef industries. Hormones utilized to influence synchronization programs and timed artificial insemination were emphasized. Students were able to practice passing guns on dissected tracts before receiving an introduction to rectal palpation techniques after lecture. The second day involved more in-depth palpation practice and gun passing on live cows with discussion topics on semen handling and proper loading of A.I. guns. The final day focused on emphasizing pharmacological choices and reviewing the previous days’ material. Beef cattle synchronization protocols were reviewed. Students were then tested on their ability to correctly handle semen, load A.I. guns, and successfully pass the cervix in live cows.

Purdue University

David Pugh, DVM, MS, MAg, DACT, DACVN, & DACVM visited Purdue University’s College of Veterinary Medicine on September 24, 2015. Dr. Pugh is the Director of the Alabama State Veterinary Diagnostic Laboratory System and a clinical professor at Auburn University’s College of Veterinary Medicine. His interests are in small ruminant and equid nutrition, parasite management and herd health.

On September 24th, Dr. Pugh provided two lectures to the members of the Student Chapter of the Society for Theriogenology and the Student Chapter of Food Animal Club. During the noon lecture, Dr. Pugh discussed nutritional requirements for small ruminant gestation. He also demonstrated the relationship between nutrition, vaccinations & parasites, reproductive management, and veterinary care. During the evening lecture Dr. Pugh discussed causes, diagnosis, and prevention of pregnancy loss in small ruminants. Members learned about the zoonotic potential and how to reduce the risk of transmitting these diseases. Dr. Pugh had the opportunity to interact with the students and faculty, tour the hospital and learn about the exciting things that are going on at Purdue University’s College of Veterinary Medicine. The chapter wants to thank the Society for Theriogenology and the Foundation for their financial support and Dr. Pugh for visiting the chapter.
Partnerships for Learning

Canine Breeder Excellence Seminar in Michigan

Michigan State University Veterinary Medical Center recently hosted a seminar for area dog enthusiasts. Over 120 individuals attended a one-day seminar featuring speakers from many parts of the country.

The day was designed to provide pertinent, useful, and current information relating to canine reproduction and neonatology. All funds raised were donated in support of the Theriogenology Foundation and the Michigan State Veterinary Medical Center. MSUVMC and the TF each received $2,569. Sponsors included Royal Canin and Veterinary Perinatal Specialties (Whelp Wise).

Featured speakers included doctors Chris Gray, Sarah Shull, John Wilson, Leah Chew, Will Schultz, and Rick Kesler. Also speaking was Karen Copley, RNC/BSN from Veterinary Perinatal Specialties.

Additional reports will follow, but the TF thanks Dr. Julie Cecere at the Virginia-Maryland College of Veterinary Medicine and Dr. Margaret Casal at University of Pennsylvania School of Veterinary Medicine for their support in planning and delivering two additional CBES programs!

Sympathy cards

TF Sympathy cards now available

Three versions of sympathy cards are now available for purchase through the TF website online store (under the Giving tab) at www.theriofoundation.org. Packets of 10 cards and envelopes can be purchased for $100 (shipping included). All proceeds benefit the Theriogenology Foundation.

Small animal sympathy card

Inside message reads, “Our sweet animal friends enrich our lives, and leave us better than before. Forever in your heart will remain the good times you enjoyed with your beloved pet. Our sympathy is with you in your loss.”

Equine sympathy card

Inside message reads, “Our sweet animal friends enrich our lives, and leave us better than before. Forever in your heart will remain the good times you enjoyed with your beloved pet. Our sympathy is with you in your loss.”

Bovine sympathy card

Inside message reads, “In your time of loss, we would like to extend our sympathy and understanding.”

The Theriogenology Foundation is a global non-profit which believes that the preservation and reproduction of animals is essential to human welfare. By engaging specialists in animal reproductive health and productivity, the TF formulates and implements solutions to combat human and animal diseases which threaten food security and the social and economic health of the world’s population. Through the efforts of the TF, students have the opportunity to travel and participate in educational programs through specialized grants. Scientists have the resources to research and develop means of fighting disease to help the global economy develop healthier, self-sustaining food production practices, and veterinary practitioners are able to assist clients with animal reproduction through advances in theriogenology.
2015 Financial summary

Financial breakdown from January 1, 2015 through December 31, 2015

We are most grateful for your financial support of the Theriogenology Foundation, providing $129,625 during this 12 month period.

Every contribution made to the Theriogenology Foundation moves us toward our goal of expanding research and knowledge in the field of theriogenology. Continued contributions provide support of the Foundation’s goals in future years. The generous support of the Society for Theriogenology and the American College of Theriogenologists covers most of the costs related to operating the Foundation, so that almost 89% of funds expended went to directly support programs. Administrative costs (office supplies, accounting and board meetings) totaled 5.4% and fundraising expenses (brochures, planned giving, postage, credit card, website fees on donations) were 5.9%.

Your tax deductible support and philanthropic investment enables us to make a huge difference in the advancement of our specialty. There is no gift too great or too small, and the Foundation is continually adding new programs to offer you ways to donate that meet your specific needs, such as our Planned Giving options. Visit www.theriofoundation.org or contact the Foundation office for more information.

Be part of the future of theriogenology!

Donating to the Theriogenology Foundation

Did you know that there are several ways that you can make a donation to the Theriogenology Foundation that will not affect your current lifestyle, or will even pay you an income? You can leave benefits from a Retirement Account, Life Insurance policy, real estate or personal property (collectibles, art, books). Take advantage of the many creative ways to benefit yourself, your beneficiaries and the Theriogenology Foundation while saving tax dollars in the process. Please take a moment to explore the Planned Giving page on the Theriogenology Foundation’s website, http://therio.plannedgiving.org. There are worksheets available and additional information to help you consider all of the options.

Gifts that pay you income

Which life-income gift best fits your needs?
