Mission Statement

The Theriogenology Foundation is a global resource that supports education and research in reproductive medicine; ensuring that future generations of animals continue to enrich our lives through service, companionship, and food for a growing human population while conserving our natural resources.

From the pen of the president

Everyone's talking about those Residents!

When the AKC/TF Companion Animal Residency Program was first launched in 2014, it was an exciting boost to theriogenology. Residents succeeded in building their clinical/surgical repertoire, engaged in teaching/research and ultimately fulfilled the requirements necessary to achieve ACT diplomate status. Colleges reported increased caseloads to their teaching hospitals and expanded their community outreach to canine fanciers and breeders. But department heads clamored for better application guidelines and, due to a mismatch in budget cycles, universities were unable to coordinate with the VIRMP (Veterinary Internship & Residency Matching Program). We knew the concept was a home run, but it lacked the framework to sustain and succeed. So we fixed it.

We are pleased to report that we have received approval for funding for two AKC/AKC CHF/TF Theriogenology Residencies with an emphasis on canine medical genetics per year for the next three years (2018, 2019 and 2020). These grants will be managed by the AKC CHF. A Request for Proposals (RFP) was issued in early May, 2017 in order to meet the timelines that will allow for funding decisions for schools to enter the residency match. This RFP includes a residency application link which details the questions and supporting documents necessary for submission. Applications received by June 14, 2017 will be reviewed by a panel which will return a decision by August 1, 2017. The first two residencies determined by this process will begin in July 2018. The Foundation is greatly appreciative to the AKC and AKC CHF for their insight and diligent effort necessary to bring this residency program to a structured and secure path. We applaud their commitment to invest in the training of theriogenologists who will ensure the health and well-being of purebred and purpose-bred dogs. And we hope that the spirit of partnership that started this residency program will extend to other opportunities which advance the discovery and management of canine reproductive health.

I can assure you that none of this is fake news.

Thank you all for your continued enthusiasm for the Theriogenology Foundation!

Anita Migday
Dr. David E. Bartlett Award for Lifetime Achievement in Theriogenology

Dr. Cliff Shipley

Dr. Shipley was raised on a diversified farm in Southwest Iowa. He attended Northwest Missouri State University where he got his BS in Animal Science and then attended Iowa State University where he got his Doctor of Veterinary Medicine degree. He practiced in Northeast Iowa before going back to his hometown where he practiced for three years before taking a position at the Virginia-Maryland Regional College of Veterinary Medicine. There he was the head of the ambulatory practice, and small ruminant and swine extension veterinarian for the state of Virginia. He subsequently relocated back to Iowa to manage a large swine operation and consult with a local feed company. Since 1991, he has taught veterinary medicine at the University of Illinois where he became board certified in theriogenology. He currently is the attending veterinarian for Agricultural Animals for the University of Illinois, teaches theriogenology, consults with deer farmers across the country and has his own elk, whitetail deer and mule deer farm. He is currently on the board of directors for the North American Deer Farmers Association, an advisory board for Pneu-Dart, the Illinois Livestock Advisory Board and the scientific advisor for the Illinois Deer Farmers Association. He has presented talks nationally and internationally on cervidae. When not working he plants and attends to his trees, food plots and hunts!

Congratulations!!!

Congratulations to Theriogenology Foundation Board member Alan Kalter and Dr. Chris Lezotte on being named AKC 2016 Breeders of the Year at the National Championship in Orlando, December 16, 2016.

MANAGEMENT OFFICE

Dr. Charles Franz
Pike Road, AL
Externship Grant Report - Elisha Perrin

My name is Elisha Perrin, and I am a fourth-year student at Purdue University College of Veterinary Medicine. My career interests are in large animal medicine. I was awarded a student externship grant from the Theriogenology Foundation which I used to travel to Mill Creek Veterinary Services in Visalia, California. MCVS is a primarily dairy cattle practice that graciously hosts students from all over the world to allow them to be immersed in the life of a dairy cattle veterinarian.

While there, I gained extensive experience in the use of rectal palpation and ultrasound to diagnose pregnancy in dairy cattle. Every day I went on herd checks with one of the clinics 11 veterinarians. While there, I followed behind the vet and checked cows on my own. At herds where ultrasound was used to diagnose pregnancies, I used the ultrasound that I borrowed from BCF through their student loan program. In the afternoons, I would help in the clinic’s milk lab labeling samples and interpreting culture plates. I rode along on emergency calls as well where I helped with dystocias and fetotomies. Other calls included hernia repairs, a pneumonia outbreak at a feedlot, and developing protocols for calf raisers. This externship allowed me to build a foundation in dairy cattle reproduction that will serve me for the rest of my career, and I am extremely grateful to the Theriogenology Foundation for helping to make this opportunity reality.

Externship Grant Report - Russell Miller

My externship with Mobile Veterinary Practice (MVP) in Amarillo, Texas was focused on equine reproduction and medicine. During my four weeks, I worked directly with Dr. T.J. Barclay and Dr. Chris Morrow. The reproductive services that I was involved with included being able to palpate and ultrasound 10 mares, castrate five colts, collect 10 stallions, and assist with two cryptorchid surgeries. While at MVP, I had the opportunity to learn how to properly collect and ship equine semen by both cooled and cryopreservation techniques. Furthermore, this experience allowed for me to participate in pre-purchase and breeding soundness exams.

This experience provided wonderful hands-on experience within equine reproductive industry. I am thankful to the veterinarians at Mobile Veterinary Practice for their patient and supportive encouragement as well as the Theriogenology Foundation for their consideration of my externship grant request.

Planned Giving Donors

Thank you to the following supporters for their generous designated gifts to support theriogenology and the Theriogenology Foundation. Won’t you help us double this list from six to 12 in 2017? Please give us a call for more information or to let us know when you have included TF in your will. Your planning now will support theriogenology in the future and insure that your wishes are fulfilled.

2017 Therio Conference Live Auction Items

BREEDERS’ CUP PACKAGE

Three nights stay
Tickets to Friday and Saturday Breeders’ Cup Races
Tickets to Special Receptions and Parties
Airfare on Delta
Friday November 3 and Saturday November 4
Beautiful Del Mar, California
Package provided by Rood & Riddle Equine Hospital
Details to be determined with purchaser and coordinator

MOFA TRANSCERVICAL ENDSOPE

State of the art transcervical endoscope for use in canine
transcervical insemination
35 mm with integrated camera & light source coupling system
Dual sided port CH8 WC
Retail value $6,500
Provided by John Lichty, MOFA International

PULSATOR IV

Complete with all accessories and case
Retail value $1,995
Provided by Bob Green, Lane Manufacturing

EDUCATIONAL OPPORTUNITY

Lexington, Kentucky
Equine education opportunity at Rood & Riddle Equine Hospital
and Hagyard Equine Medical Institute
Learn new techniques, confirm old observations, see the latest
in equipment, visit beautiful horse farms, tour amazing Bourbon
distilleries and generally have a great time in the Bluegrass.
Travel stipend included. Housing may be available.
Experience tailored to the interests of purchaser.
Date to be determined between purchaser and coordinator.
Send an associate. Inspire a student.

The Theriogenology Department at Auburn University CVM
will provide training in small animal, food animal, and equine
theriogenology based on the experience and interests of the
purchaser. A recipient of an AKC -TF small animal residency,
the ACT members at Auburn will tailor the experience to
the purchaser. Dates to be determined with purchaser and
coordinator. A variety of social events are available depending on
time of year.

Sealed bids accepted prior to live auction.
www.theriofoundation.org/page/sealedbidform
Telephone bids accepted during auction.
EDUCATIONAL OPPORTUNITY

Recipient of an AKC-TF Small Animal Residency, the Theriogenology Department at OSU will provide exposure to small animal, food animal, or equine reproductive techniques tailored to the needs and interests of the purchaser. A variety of social events will be planned depending on time of year. Date to be determined with purchaser and coordinator.

WESTMINSTER PACKAGE

Tickets, lodging, and air travel included in package.
Make it your own Valentine’s weekend getaway.
Package provided by Dr. Anita Migday and Mr. Alan Kalter
Details to be determined with purchaser and coordinator.

PROFESSIONAL BULLRIDERS NATIONAL FINALS PACKAGE

November 1-5, 2017, Las Vegas, Nevada
Tickets, lodging, airfare with behind the scenes tour with Dr. Gary Warner
Details to be determined with purchaser and coordinator.
Package provided by Dr. Gary Warner and Dr. Mike Thompson

Partnerships for Learning

Canine Breeder’s Excellence Seminar Track Report - 2017 Michigan State

The Theriogenology Foundation was proud to sponsor the 2017 Canine Breeder Excellence Seminar Track at Michigan State University’s College of Veterinary Medicine! This C-BEST seminar was hosted by the Michigan State University Veterinary Medical Center in East Lansing, Michigan on Saturday March 18, 2017.

The seminar was directed to dog breeders and owners, and provided information to better understand canine reproductive health and tools for successful breeding program. The seminar attracted 78 attendees, with six webinar participants. Speakers included Dr. Marty Greer, Dr. Will Schultz, Dr. John Wilson, Dr. Rick Kesler, Dr. Randy Carpenter and Mr. Ken Sunden. The seminar covered topics on canine reproduction, “cool” repro cases, brucellosis, neonatology, Penn Hip, OFA hips/elbows and new “puppy saving” techniques and equipment.

The Theriogenology Foundation extends a special thanks to Dr. Randy Carpenter and his team for coordinating the program and managing the onsite functions of the seminar. Thanks to everyone at MSU CVM for making this C-BEST a success! Registrations totaled $5,967 for the Michigan State C-BEST, with 50% of the revenue over expenses going to the TF.

Canine Breeder’s Excellence Seminar Track Report - 2017 PennVet

The Theriogenology Foundation was proud to sponsor the 2017 Canine Breeder Excellence Seminar at PennVet’s College of Veterinary Medicine on March 4, 2017.

This year’s seminar was expanded to include not only Veterinary CE credits, but also AKC Bred with H.E.A.R.T. CE credits!

The seminar kicked off with keynote speaker Dr. Shelley Rankin’s lecture on “Biosecurity.” Other sessions included “Canine Dentistry” by Dr. Marie Buelow, “Vaccine Protocols and Controversies” by Dr. Margret Casal, “Pet First Aid” by Dr. Dana Clarke, “Female Fertility” by Dr. Carol Margolis, “Dystocia” by Dr. Samantha Souther and “Genetics for Breeders” by Dr. Victor Stora.

The seminar attracted 38 on-site and 10 webinar registrations. The Theriogenology Foundation extends a special thanks to Dr. Carol Margolis, Dr. Margret Casal and the PennVet team for facilitating the program and onsite management of the seminar. Thanks to all the support from the local team in collaboration with the TF management team, the total from registrations was $3,330 with proceeds benefitting the Theriogenology Foundation and PennVet Section of Medical Genetics.

TF Sympathy Cards

Three versions of sympathy cards are now available for purchase through the TF website online store (under the Giving tab) at www.theriofoundation.org. Packets of 10 cards and envelopes can be purchased for $100 (shipping included). All proceeds benefit the Theriogenology Foundation.

Small animal sympathy card
Inside message reads, “Our sweet animal friends enrich our lives, and leave us better than before. Forever in your heart will remain the good times you enjoyed with your beloved pet. Our sympathy is with you in your loss.”

Equine sympathy card
Inside message reads, “Our sweet animal friends enrich our lives, and leave us better than before. Forever in your heart will remain the good times you enjoyed with your beloved pet. Our sympathy is with you in your loss.”

Bovine sympathy card
Inside message reads, “In your time of loss, we would like to extend our sympathy and understanding.”
TF Donor Recognition

Contributions to the Theriogenology Foundation increase educational opportunities, support research and enhance the field of theriogenology.

Supporting our Future: Levels of Annual Individual Giving

- **Genesis Society**: $5,000 or more
- **Visionary**: $1,000-$4,999
- **Pathfinder**: $100-$999
- **Supporter**: $25-$99

Donors will be recognized in the Foundation publication THERiver.

Rocky Mountain Society

This Society recognizes donors who have made an annual commitment to giving at the Supporter Level or higher for five or more consecutive years. The milestone years for recognition in the Society are 5, 10, 15, 20 and 25 consecutive years.

The 10 year level is known as the Dr. S. J. Roberts Circle of the Rocky Mountain Society.

The 20 year level is known as the Dr. David Bartlett Circle of the Rocky Mountain Society.

First-time Rocky Mountain Society members, or those reaching new milestones, will receive by mail a RMS welcome letter and lapel pin denoting the milestone period of consecutive year giving.

1954 Society

This Society recognizes donors whose legacy gifts play a key role in securing the future of the Theriogenology Foundation. These donors have remembered the TF with a lifetime income gift or as a beneficiary of a will, trust, retirement plan, or life insurance policy.

The 1954 Society is named for the year in which the Rocky Mountain Society for the Study of Breeding Soundness in Bulls (now the Society for Theriogenology) was organized. Circles within the 1954 Society provide for additional recognition opportunities:

- **The Legacy Circle** honors donors whose cumulative lifetime giving totals between $60,000 and $100,000.
- **The Founders Circle** honors cumulative lifetime giving that totals between $100,000 and $150,000.
- **The Inventors Circle** honors cumulative lifetime giving that totals between $150,000 and $200,000.
- **The Fertile Circle** honors cumulative lifetime giving exceeding $200,000.

An appropriate plaque and lapel pin will be presented for each level of recognition. Members of the 1954 Society will be invited to attend a private stakeholders reception at the Annual Conference and will receive updates on Foundation giving news.

You Choose How to Give

Planned Giving

Planned Giving provides the opportunity to donate to the Foundation through your trust, will, and other assets as you choose, to leave a legacy for a cause you are passionate about. The “Plan-a-Gift” section on the TF website is particularly helpful for guidance on gift options. There are giving options for all levels and numerous tools for choosing the gift that best suites your needs. An attorney’s counsel is also recommended.

Annual Giving

Your yearly contribution can be used to sustain existing projects or spearhead new research to advance the science and practice of animal reproductive medicine. You determine your level of giving and direct your contribution towards education, research or achievement recognition. Every donation counts!

Honor Gifts

Honor gifts serve as a meaningful way to recognize someone special while supporting the important work of the TF. Acknowledge the accomplishment of a friend or family member with an honor gift. Celebrate a special event, birthday or anniversary in the life of someone important to you. Make a tribute to an animal which has made an impact in the life of someone you know. A letter acknowledging your gift will be sent to the recipient.

Memorial Gifts

A memorial gift can be made to recognize the loss of a beloved family member, friend or colleague. Memorial gifts pay tribute to the individual by affirming their passion for science, education and the continued advancement of knowledge in our specialty. The Foundation will notify a designated contact in writing to both acknowledge your donation and convey sympathy for their loss.

Corporate/Club Gifts

Corporations and organizations may contribute to the Foundation’s general fund or may restrict their donation to champion a specific project or species.

Creative giving

Use your creativity, motivation and commitment to launch a TF fundraising event through your hobby club, book club, sports team, office or service group. Share your personal achievements and passions for running, swimming, baking or biking by making it a fundraising event that includes friends and family.

Therio Raffle Tickets

The Annual Therio Raffle funds help support the TF and offers participants the opportunity to win a free registration to the next year’s Therio Conference, a three night hotel stay and event tickets. Only 200 tickets will be sold for $50 each. The drawing is held at the Therio Conference Awards Dinner, you do not have to be present to win. Available online anytime!

Therio Auction Support

Annually, the Foundation conducts a silent and live auction during the Therio Conference. This event has become a great fundraiser for the foundation. If you cannot attend, you can submit a sealed bid form on any item you choose. Visit www.theriofoundation.org to view items and submit your sealed bid form.
# 2016 Financial Summary

**Financial breakdown from January 1, 2016 through December 31, 2016**

The Theriogenology Foundation is very grateful for the $243,839 of funding you have provided during this 12 month period.

The majority of operating costs were covered by the generous support of the Society for Theriogenology and the American College of Theriogenologists so that almost 83 percent of funds expended went to directly support programs. Administrative costs (office supplies, accounting and board meetings) totaled 5.2 percent and fundraising expenses (brochures, planned giving, postage, credit card, website fees on donations) were an additional 11.9 percent. These contributions keep the Foundation on track towards reaching our goals of expanding research and knowledge in the field of theriogenology. Your continued contributions will enable the Foundation to move forward with this work in future years.

Your tax deductible support and philanthropic investment brings us ever closer to the goals we have set for theriogenology and our Foundation. There is no gift too great or too small, and the Foundation is continually adding new programs to offer you ways to donate that meet your specific needs, such as our Planned Giving options. Visit [www.theriofoundation.org](http://www.theriofoundation.org) or contact the Foundation office for more information.

Donating to the Theriogenology Foundation

Did you know that there are several ways that you can make a donation to the Theriogenology Foundation that will not affect your current lifestyle, or will even pay you an income? You can leave benefits from a Retirement Account, Life Insurance policy, real estate or personal property (collectibles, art, books). Take advantage of the many creative ways to benefit yourself, your beneficiaries and the Theriogenology Foundation while saving tax dollars in the process. Please take a moment to explore the Planned Giving page on the Theriogenology Foundation’s website, http://therio.plannedgiving.org. There are worksheets available and additional information to help you consider all of the options.

Gifts That Pay You Income

Which Life-income Gift Best Fits Your Needs?

Charitable Gift Annuity
