Hope and Joy – these are the feelings that dominate this time of year! From the first hopeful ultrasound of a pregnancy to the final post-natal photos.

I feel the same about our specialty and our Theriogenology Foundation. We have much for which to be hopeful and joyful! This note will be short, because I want you to focus on all the information and activities of the Foundation found within this newsletter. One of our keystone accomplishments is the third year of the Nandi (student) Scholars Program led by Dr. Jim Floyd, with the help of the committee: Drs. Carleton, Barber, Estill, Hermann, McLeod, Randall, Sheerin, and Thompson. The bios for these remarkable students are showcased inside the letter and they will be recognized at the Birmingham meeting.

The TF Granting Committee has been very busy with reviewing and awarding grants and reviewing travel grants for students and new faculty this spring; so many thanks to

Dr. Ryan and his committee: Dr. Hollinshead, Palmer, and Ferrer. Please check out inside the grants funded for this funding cycle.

And then there is Birmingham! Dr. Floyd has tirelessly worked on auction items (silent and live), which is an extremely important fundraising endeavor. Many thanks to Dr. Floyd and his team: Drs. Bott, Coutinho da Silva, Hollinshead, and Randall. Check out all the amazing items that could be yours!

So be joyful for what we have done and hopeful for what the future will bring. I look forward to seeing you in Birmingham!

Sara
Dr. David E. Bartlett Award for Lifetime Achievement in Theriogenology

Dr. Stuart Meyers

Dr. Meyers is a professor in the School of Veterinary Medicine at the University of California, Davis and teaches Theriogenology and Anatomy, Physiology, and Embryology in the DVM professional and Graduate programs. He obtained his BS and DVM degrees from Michigan State University where he grew up. He obtained his MS degree in Reproductive Physiology at Oregon State University and his PhD in Comparative Pathology at UC Davis. Stuart did his residency in large animal Theriogenology at Texas A&M University and was board-certified in the ACT in 1990. Stuart was in mixed large animal and Dairy Herd Health practice after vet school graduation and was resident veterinarian on a Standardbred breeding farm in Illinois after residency training.

Dr. Meyers directs a research program in gamete biology focusing on the sperm, eggs, and embryos of horses, dogs, non-human primates, and fish. He has more than 160 peer-reviewed scientific publications. He continues to conduct research at UCD and co-directs the Veterinary Gamete Biology Laboratory and ICSI program.

Dr. Meyers has trained 10 PhD and 7 MS students and has been awarded both the School of Veterinary Medicine and UC Davis Distinguished Teaching Awards.

Stuart is married to Becky Meyers, also a veterinarian, and they have two sons, Alex and Matthew, along with two dogs and two cats.

2023 Canine Breeder Excellence Seminar Track Virtual Series

April 2023 Canine Breeder Excellence Seminar Track Virtual Series

Thank you to all that attended the April Canine Breeder Excellence Seminar Track Virtual Series! We had over 174 attendees register for the spring series. This webinar series consisted of three sessions of much sought-after breeder education content. The series began on April 5 with Dr. Gail McRae (The Ohio State University) covering the topic of "Factors affecting breeding success; what are the best choices for you?". "What to expect when you’re whelping" was hosted by Dr. Anum Ahmed (University of Florida) on April 12. The series ended on April 19 with Dr. Nicole Sugai (Virginia-Maryland College) as she covered the topic of "What is in the box? Shipping canine semen".

The Theriogenology Foundation would like to thank all of the speakers for their time and knowledge. Dr. Joann Randall for moderating and coordinating each of these sessions for the Foundation, Mari-Beth O’Neill with AKC, the AKC Educational Department, and Andrea Fiumefreddo and her staff at AKC CHF for making each of these events possible. All proceeds benefit the Theriogenology Foundation educational programs.
## Theriogenology Foundation Committees 2022-2023

### The Bartlett Award Committee
- Dr. Jack Smith
- Dr. Ahmed Tibary
- Dr. John Dascanio
- Dr. Dirk Vanderwall
- Dr. Mike Thompson

### The Nandi Scholars Program Committee
- Dr. Jim Floyd (Chair)
- Dr. Jane Barber
- Dr. Chuck Estill
- Dr. Shirley Johnston
- Dr. Kit Kampschmidt
- Dr. Sara Lyle
- Dr. Don Sanders
- Dr. Pete Sheerin
- Dr. Mike Thompson

### The TF Granting Committee: Research & Student/Resident/New Faculty Opportunities
- Dr. Peter Ryan (Chair)
- Dr. Maria Ferrer
- Dr. Fiona Hollinshead
- Dr. Colin Palmer

### The TF Strategic Planning Committee
- Dr. Sara Lyle (Chair)
- Dr. Jim Floyd
- Dr. Marco Coutinho da Silva

---

**Save the Date now to join us at the following locations for the Annual Therio Conference:**

- **July 24-27, 2024**: Oklahoma City, Oklahoma
- **July 23-26, 2025**: Sacramento, California
- **July 22-25, 2026**: Pittsburgh, Pennsylvania

---

**Student Externship Grant Report**

**Jamye Davies**

My name is Jamye Davies and I am a second year, veterinary student at Texas Tech University School of Veterinary Medicine. I was thrilled to start my summer off by attending the Rood & Riddle Equine Hospital in Lexington, KY as an extern. After spending my first day in the theriogenology building I felt with even more certainty that I will pursue a career within the theriogenology aspect of veterinary medicine. I was allowed to observe numerous treatments and techniques, such as oocyte collection by follicle aspiration or uterine flushing techniques, stallion semen collections, embryo transfer techniques, as well as my personal favorite- endometrial cup injections which is part of a newer study taking place in the hospital there. My plethora of questions were all answered and encouraged, as well as multiple conversations were had, discussing work-life balance, career paths, as well as new and exciting medical advancements in equine theriogenology. Through this opportunity, I gained not only connections that I will take advantage of in my later years of my veterinary career path, but also connections within the theriogenology community that I will be able to utilize well within my next few years as a veterinary student. I am beyond excited to continue to pursue my passion in equine theriogenology and I am overwhelmed with gratitude to the Theriogenology Foundation and its donors for making this opportunity possible.

---

Please visit the TF website at:

https://www.theriofoundation.org/page/AuctionItems
to preview this year’s Silent and Live Auction items.

Please visit the registration desk to see if tickets are available for the Friday night Awards Dinner, Live Auction, and Veterinary Story Night.
TF Grants at Work

Research Grants Awarded

Dr. Brian Whitlock (University of Tennessee-Knoxville) “Effect of Compound 6 on the Hypothalamin-Pituitary-Gonadal Axis in Cows”

Dr. Samantha McCarter (Virginia-Maryland) “Comparing Milk Composition and Puppy Growth of Overweight and Lean Bitches”

Dr. Patricia Xavier (University of Georgia) “Role of IZUMO1 and Sperm Bound Anti-Sperm Antibodies in Bovine IVF”

Student Travel Grants Awarded

Ammasie Allred • Thomas Burke • Caroline Christoff • Cody Davis • Emma Mullins
Lexie Oncale • Matthew Rafferty • Casey Rubin • Jewel Toenges • Elizabeth Whitt

ACT Student Outreach Grant

University of Pennsylvania

On March 25, 2023 members of the University of Pennsylvania Student Chapter of the Society for Theriogenology traveled to Washington DC for a field trip to the Smithsonian National Zoo & Conservation Biology Institute. The group was hosted by Dr. Donald Neiffer, Chief Veterinarian and Dr. Pierre Comizzoli, Research Biologist and Program Officer for Science. Students had great opportunity to learn about the many challenges, veterinary procedures, conservation efforts, and research experienced by wildlife veterinarians. Students were treated to a tour of the veterinary hospital, a “behind the scenes/exhibit” tour and met some of the zoo’s animals. New Bolton Center faculty in the Section of Reproduction and Behavior who are faculty advisors for the Reproduction Club include Dr. Leonardo Brito, who organized this event, and Dr. Patricia Sertich.

Caption for photo:

Members of the University of Pennsylvania Student Chapter of the Society for Theriogenology hold an elephant insemination catheter guide. Their host, Dr. Donald Neiffer, Chief Veterinarian on the far left, back row and Dr. Leonardo Brito (first row left) and Dr. Patricia Sertich (back row, right) are faculty advisors for the club.
Congratulations to the AK, AKC-CHF, TF Companion Animal Resident Beginning Their Program in 2023

Gabriela Caneiro de Sousa, MV (DVM equivalent)
Residency Coordinator: Julie T. Cecere, DVM, MS, DACT
Virginia-Maryland College of Veterinary Medicine

RALEIGH, NC (June 27, 2023) – The AKC Canine Health Foundation (CHF), a non-profit organization dedicated to advancing the health of all dogs, announces the 2023 American Kennel Club/AKC Canine Health Foundation/Theriogenology Foundation Small Animal Theriogenology Residency recipient.

Dr. Sousa earned her veterinary degree from the Federal University of Goiás in Brazil. She completed an animal reproduction residency and is set to earn a master’s degree in animal biotechnology at São Paulo State University, also in Brazil. She has completed theriogenology externships in Brazil and the United States. Dr. Sousa is passionate about reproductive medicine and surgery, with a particular interest in pregnancy/parturition topics. After her residency, she plans to stay in academia doing research and teaching.

“The AKC and Theriogenology Foundation in a joint commitment to support the health of dogs through the funding of our annual Theriogenology Residency Program,” says Dr. Stephanie Montgomery, CHF Chief Executive Officer. “This partnership drives advancements in veterinary medicine and empowers practitioners to provide specialized care in reproductive health and contribute to improving the lives of dogs.” The two-to-three-year residency programs funded through this initiative provide specialty training in all aspects of companion animal reproductive medicine and surgery, clinical genetics, as well as clinical practice related to male and female reproduction, obstetrics, and neonatology. This training helps ensure that qualified veterinary specialists are available to meet the needs of current and future generations of dogs. Learn more about the program and its participants at akcchf.org/therio.

NANDI Theriogenology Scholars – Class of 2023

The Theriogenology Foundation announces the selection of four senior veterinary students as the 2023 Nandi Theriogenology Scholars. This third class of Nandi Scholars was selected from a pool of 17 applicants representing 12 different veterinary schools. They will be recognized and receive their awards of $10,000 each at the Annual Conference in Birmingham, Alabama on Friday, July 21. Thanks to the 26 dedicated reviewers who selected these outstanding four students, and to all who have donated to the Foundation to make these awards possible.

Matthew Barnes - Washington State University
After graduation Matt will return to northeastern Nevada where he grew up as a 7th generation rancher to join a mixed animal practice. His goal is to increase both large and small animal reproductive services for his practice and become an ACT Diplomate by the alternate route.

Leah Ramsaran – Cornell University
Leah will pursue a residency in Theriogenology and use this training toward the advancement of conservation efforts for endangered species.

Dane Schwartz – Washington State University
Dane is applying for a year-long academic internship in Food Animal Production Medicine and then will seek a residency in Theriogenology. He is interested in private practice or academic career emphasizing comparative Theriogenology & ART.

Sabrina Van Schyndel – University of Guelph
Sabrina is joining a large, multi-practitioner bovine practice in Southern Ontario specializing in dairy reproductive management, preventive medicine and surgery.
You Choose How to Give

Planned Giving
Planned Giving provides the opportunity to donate to the Foundation through your trust, will, and other assets as you choose, to leave a legacy for a cause you are passionate about. The “Plan-a-Gift” section on the TF website is particularly helpful for guidance on gift options. There are giving options for all levels and numerous tools for choosing the gift that best suites your needs. An attorney’s counsel is also recommended.

Annual Giving
Your yearly contribution can be used to sustain existing projects or spearhead new research to advance the science and practice of animal reproductive medicine. You determine your level of giving and direct your contribution towards education, research or achievement recognition. Every donation counts!

Honor Gifts
Honor gifts serve as a meaningful way to recognize someone special while supporting the important work of the TF. Acknowledge the accomplishment of a friend or family member with an honor gift. Celebrate a special event, birthday or anniversary in the life of someone important to you. Make a tribute to an animal which has made an impact in the life of someone you know. A letter acknowledging your gift will be sent to the recipient.

Memorial Gifts
A memorial gift can be made to recognize the loss of a beloved family member, friend or colleague. Memorial gifts pay tribute to the individual by affirming their passion for science, education and the continued advancement of knowledge in our specialty. The Foundation will notify a designated contact in writing to both acknowledge your donation and convey sympathy for their loss.

Corporate/Club Gifts
Corporations and organizations may contribute to the Foundation’s general fund or may restrict their donation to champion a specific project or species.

Creative Giving
Use your creativity, motivation and commitment to launch a TF fundraising event through your hobby club, book club, sports team, office or service group. Share your personal achievements and passions for running, swimming, baking or biking by making it a fundraising event that includes friends and family.

Theriogenomy Auction Support
Annually, the Foundation conducts a silent and live auction during the Therio Conference. This event has become a great fundraiser for the foundation. If you cannot attend, you can submit a sealed bid form on any item you choose. Visit www.theriofoundation.org to view the foundation. Planned Giving Donors
Thank you to the following supporters for their generous designated gifts to support theriogenology and the Theriogenology Foundation. Have you been thinking about this but just not finished setting it up? Please give us a call for more information or to let us know when you have included TF in your will. Your planning now will support theriogenology in the future and insure that your wishes are fulfilled.

TF Donor Recognition
Contributions to the Theriogenology Foundation increase educational opportunities, support research and enhance the field of theriogenology.

Supporting our Future: Levels of Annual Individual Giving

<table>
<thead>
<tr>
<th>Level</th>
<th>Range</th>
</tr>
</thead>
<tbody>
<tr>
<td>Genesis Society</td>
<td>$5,000 or more</td>
</tr>
<tr>
<td>Visionary</td>
<td>$1,000-$4,999</td>
</tr>
<tr>
<td>Pathfinder</td>
<td>$100-$999</td>
</tr>
<tr>
<td>Supporter</td>
<td>$25-$99</td>
</tr>
</tbody>
</table>

Donors will be recognized in the Foundation publication THERiver.

Rocky Mountain Society
This Society recognizes donors who have made an annual commitment to giving at the Supporter Level or higher for five or more consecutive years. The milestone years for recognition in the Society are 5, 10, 15, 20 and 25 consecutive years.

The 10 year level is known as the Dr. S. J. Roberts Circle of the Rocky Mountain Society.

The 20 year level is known as the Dr. David Bartlett Circle of the Rocky Mountain Society.

First-time Rocky Mountain Society members, or those reaching new milestones, will receive by mail a RMS welcome letter and lapel pin denoting the milestone period of consecutive year giving.

1954 Society
This Society recognizes donors whose legacy gifts play a key role in securing the future of the Theriogenology Foundation. These donors have remembered the TF with a lifetime income gift or as a beneficiary of a will, trust, retirement plan, or life insurance policy.

The 1954 Society is named for the year in which the Rocky Mountain Society (now the Society for Theriogenology) was organized. Circles within the 1954 Society provide for additional recognition opportunities:

- The Legacy Circle honors donors whose cumulative lifetime giving totals between $60,000 and $100,000.
- The Founders Circle honors cumulative lifetime giving that totals between $100,000 and $150,000.
- The Inventors Circle honors cumulative lifetime giving that totals between $150,000 and $200,000.
- The Fertile Circle honors cumulative lifetime giving exceeding $200,000.

An appropriate plaque and lapel pin will be presented for each level of recognition. Members of the 1954 Society will be invited to attend a private stakeholders reception at the Annual Conference and will receive updates on Foundation giving news.
Thank You for Your Generosity

Donations received from January 1, 2022 through December 31, 2022

Be part of the future of theriogenology!

Donate your required minimum IRA distribution to the Theriogenology Foundation

Did you know? People age 70½ or older can transfer funds directly from an IRA to a qualified charitable organization like the Theriogenology Foundation. While the contribution isn't deductible, it's not subject to income tax, either. Since the donation of the IRA money would otherwise be taxed when you withdraw it, this equates to a 100% deduction for the amount donated, up to $100,000.

To qualify for this tax break, the distributed funds must go directly from the IRA trustee to the charitable organization.

Consult your tax professional for more information or give us a call with any questions.

Donating to the Theriogenology Foundation

Did you know that there are several ways that you can make a donation to the Theriogenology Foundation that will not affect your current lifestyle, or will even pay you an income? You can leave benefits from a Retirement Account, Life Insurance policy, real estate or personal property (collectibles, art, books). Take advantage of the many creative ways to benefit yourself, your beneficiaries and the Theriogenology Foundation while saving tax dollars in the process. Please take a moment to explore the Planned Giving page on the Theriogenology Foundation’s website.
