Maintenance of Certification (MOC) Platform Tutorial
• The policies and procedures for MOC are described in the ‘Maintenance of Certification Guide’ available on the ACT website.

• All Diplomates of the American College of Theriogenologists (ACT) who achieved Diplomate status in 2016 or after are required to Maintain Certification every 10 years.

• Certification is maintained by an accumulation of credits from qualified activities.

• Credit qualified activities might be entered into the MOC platform at any time during the 10-year MOC period. **It is strongly recommended to enter activities as they are completed.**

• This tutorial describes the use of the MOC Platform.

Note that an activity unit of "Occurrences" means you enter 1 for every time you did that activity. For example: 1 short course or workshop

Activity units

Your activity units will be automatically converted to 2 CECs
(Note: Estimate only. This number may be lowered upon approval based on per-year or per-cycle maximums for this activity type)
Click “Choose Files” to attach your screenshot of your passing score.

*NOTA BENE:* be sure the screenshot of your passing grade clearly shows the entire screen with score and date.

Then scroll down and click “Submit.”
Introduction

This form is for renewal of your American College of Theriogenologists Diplomate certification, which is required every ten (10) years to maintain your diplomate status. On this form you will be asked to:

- List your credentials
- Provide an up-to-date resume or CV
- Submit 100 Maintenance of Certification points, with 25 of the required points coming from continued education hours in Theriogenology

Renewal applications are accepted up to two years early if a Diplomate has reached the minimum 100 points by that time. Early submissions must meet the same criteria and deadlines as the rest of that year’s candidates.

Please refer to the ACT Maintenance of Certification Guidebook for full details about the renewal and maintenance of certification process and requirements.
Maintenence of Certification points are automatically tracked based on applications for points submitted separately. Your approved MOC points for the appropriate time period will appear above.

A minimum of 25 hours must come from continued education hours in Theriogenology.

**Earned MOC Points**

**Included credits total: 106 (Minimum credit total has been met)**

• All Diplomates who achieved the Diplomate status in 2016 or after are required to Maintain Certification every 10 years, or they will forfeit ACT Diplomate status and no longer be eligible to claim ACT Diplomate certification.

• The 10 years will start on Jan 1st after the Candidate has completed all the requirements to become an ACT Diplomate.

• Certification is maintained by an accumulation of points added to the MOC platform. There are no extensions if the required points are not accumulated in the 10-year period.

• Significant extenuating circumstances will be subjected to the ACT Executive Board decision.

• There is no minimum per year. Diplomates must accumulate 100 points per 10-year period.

• You may enter items at any point during the 10-year MOC period. It is strongly encouraged to enter items as they are completed.

• 25 of the required 100 points must come from continuing education hours in Theriogenology.

• The renewal can be submitted up to two years before the due date. For example, if you became a Diplomate in 2018, you have three tries to submit the package on the 8th (2026), 9th (2027), and 10th (2028) year of your current cycle.
