

TLA GODORT sponsored a program titled “Realize Your Dream with Reliable Statistics from Uncle Sam” about finding statistics from United States government sources at the Tennessee Library Association’s Annual Conference. It was well attended.

A business meeting of TLA-GODORT was held on April 7, 2016 in conjunction with the TLA Annual Conference. Since some of the attendees were visitors and others, members who had not been at the previous meeting, much of the proceedings concerned reviewing the deliberations of the previous meeting. The Round Table is working on improving the discard and disposition process within the state of Tennessee. A sub- committee of six Shared Holdings Libraries is working on using Google Drive in order to streamline the process. There was also a general discussion about the value of being a government documents librarian and the advantages of various listservs in the field. Some current trends among depositories in Tennessee were highlighted.
