

Roundtable: Technical Services

Not much activity. Sent a request to members of this roundtable for nominations/elections of new officers of this group as it was not completed at the conference due to low attendance in Memphis. No responses at this time. Will try to arrange for asking to conduct an online meeting with membership in the next month to resolve item and also preparing to submit a few ideas or proposals for the upcoming 2016 TLA conference. A work in progress.
