

Technical Services Roundtable conducted a meeting through the TLA GoToMeeting site October 21, 2015. We discussed the officers and some difficulties to get nominations and suggested term to run two years instead of one and also the need for a new chair elect position. We do not have a chair elect at this time but will elect a new one at the business meeting for the upcoming conference, who will serve in 2016 in that capacity and take the chair in 2017.

Discussed the details for the program proposal submitted for the upcoming conference. A panel has been formed to discuss the hot topics, terminology/acronyms, changes and other pertinent information of upcoming electronic modalities as well as print or all important to technical services area of libraries.

I submitted a proposal/request to conduct a business meeting at the conference. TSRT will hold another online meeting in January.
