# An Introduction to the New TOCICO Board Chair

## Welcome Christoph Lenhartz

We're thrilled to introduce and welcome our new Board Chair, Christoph Lenhartz, to lead our organization into an exciting chapter of growth and innovation moving forward. With a wealth of experience and TOC knowledge, a past Board Member and Past Chairman of TOCICO, and a deep commitment to the Theory of Constraints, Christoph Lenhartz is poised to guide TOCICO towards new horizons. His dedication and vision will undoubtedly inspire us all as we work together to further our mission of promoting and advancing the Theory of Constraints. We look forward to an incredible journey under Christoph Lenhartz leadership, and we invite you to join us in extending a warm welcome to them as our new Board Chair. Learn more about Christoph on the [Board of Directors](#) website page.

## Welcome the 2023 Board of Director Elects

TOCICO is pleased to announce the 2023 Board Election results. Please join us in congratulating Andrew Kay and Matt O'Brien, re-elected to the Board, and welcoming new Board Member, Val King. All three Board members will serve a 3-year term, effective October 10, 2023, concluding at the TOCICO Annual Meeting in 2026. We are excited to share this news with our members and friends. You can view their full bios along with the entire [Board of Directors](#) online anytime.

Andrew Kay

Val King

Matt O'Brien

## A Special Thanks to Bimlendra Jha

Thank you Bimlendra for your service, passion, and insights as a TOCICO Board Member for the past 3 years. Your leadership and influence have been instrumental in enhancing TOCICO and TOC community. We are extremely grateful for your contributions and friendship.

TOC INNOVATION SUMMIT 2023  
A PATHWAY TO A SUSTAINABLE FUTURE

*Thank You to All!*

TOCICO extends its heartfelt gratitude to the attendees, speakers, sponsors, conference committee, TOCICO Board & Support staff and Margaritaville team who contributed to the success of the TOC Innovation Summit 2023. We take great pride in our mission to spread the Theory of Constraints knowledge and increase the adoption of its innovative and transformative capabilities worldwide. This summit provided a platform for learning, engagement, growth, gaining invaluable insights, and sparking inspiration. It was an opportunity to unearth those enlightening “AHA moments”. Once more, we wish to express our deep appreciation for the indispensable roles played by all those involved in making this a truly exceptional and educational experience.

# CRITICAL CHAIN 2024

## CALL FOR SPEAKERS

### We're excited to announce that the Call for Speakers for Critical Chain 2024 is now open!

**Critical Chain 2024**, the premier online conference dedicated to Critical Chain Project Management (CCPM), will take place in 2024. This event is set to showcase the immense value CCPM brings to project management, all under the common theme – Deliver more projects faster, better, and lower cost.

**We anticipate** an audience of up to 2,000+ project managers, portfolio managers, and CCPM practitioners eager to gain insights, solutions, and answers to their project management challenges.

**Our mission is clear:** to provide an engaging, thought-provoking, and valuable program for both attendees and sponsors. Compelling presentations are the heart of our conference, and we encourage you to keep this in mind as you prepare your submission.

**Join us** in demonstrating the power of CCPM and leave a lasting impression on the project management community. Your expertise and insights are essential to the success of Critical Chain 2024!

**Submit your proposal** today and be a part of this influential event. Together, let's shape the future of project management.

**Stay tuned** for more updates and details on Critical Chain 2024!

### BOUNDED MORALITY: WHY PETER SINGER IS WRONG IN SAYING PEOPLE ARE BAD

**NOVEMBER 29, 2023** | 10am - 12pm EST (GMT-5)

*Presented by Humberto Baptista*

This engaging Live webinar will delve into Peter Singer's renowned 1972 paper, "Famine, Affluence and Morality," which has stirred discourse by proposing that the majority of humanity might inadvertently fall into the category of "bad people." Despite decades of enduring controversies and criticisms, Singer's logical framework remains largely unchallenged. In this enlightening session, Humberto will skillfully unravel Singer's intricate reasoning while unveiling the concealed assumptions through the application of Theory of Constraints (TOC) tools. By doing so, we aim to uncover the profound implications this revelation holds for human morality and explore the profound question of what it truly means to embody the traits of a "good person."
