TN Laws and Rules Workshop is from 3:30 p.m. - 4:30 p.m.

Workshop Description

For almost 25 years, The Trust has been providing continuing education workshops and individual consultations, with a focus on improving psychologists' risk management skills and strategies. These workshops have evolved from basic concepts and strategies, to a more applied, integrated, and strategic approach to help you protect yourself from adverse disciplinary and legal actions.

For this newest workshop, The Trust Risk Management Program reviewed data from over 70,000 consultations provided to date in order to determine which issues and questions are most pressing for today's psychologists. Topics will include boundaries and multiple relationships, challenging terminations, working with children in the midst of family conflict, coping with disciplinary complaints, and psychotherapy patient requests for legally-related documentation.

TN Laws & Rules Workshop will be presented by Pam Auble, Ph.D., ABPP for an additional 1.0 Type I Continuing Education Credits sponsored by the Tennessee Psychological Association.

Objectives

- Describe basic principles of risk management, as applied to several specific clinical situations that frequently arise in professional practice;
- Identify high risk boundary violations and multiple relationship situations;
- Recall important considerations when making therapeutic termination decisions;
- Evaluate potential risks when working with children in high- conflict families;
- Formulate a plan for responding to disciplinary or legal complaints; and
- Identify issues and strategies when psychotherapy patients make quasi-forensic requests.

Objectives TN Law and Rules

- Apply information from new legislation to the practice of psychology;
- Examine requirements for licensure and hurdles to becoming licensed;
- Identify the types of Rule violations and resulting adverse decisions from the TN Board of Examiners.
