

TCAA On-Demand Courses 2026

Trauma Center Association of America

A Framework for Success: Using SPIKES in Difficult Conversations with Patients, Students, and Colleagues
A Severe Pediatric Crush Injury with Limb Salvage
Achieving Blood Product and Resuscitation Balance
Addressing the New Pediatric Readiness Standards at Your Trauma Center
Advances in Burn Care
Answering the Question: Is This Really a Hospital Event?
Application of Trauma Scores and Scales
Avoiding the Headache of Coding Head Injuries
Best Practice Guidelines for Coding Liver and Splenic Injuries
Best Practice Guidelines for Coding of Upper Extremity Injuries
Blood Products and Utilization of Blood for Mass Hemorrhage
Burn Care for Non-Burn Trauma Centers: Stabilization, Transfer and Building Local Capacity
Case Presentation: Size Doesn't Matter - How can a metal shard get you to the OR in one afternoon?
Case Study - Bear Attack Response
Challenges and Issues in Hospital Mass Casualty Triage
Complex Trauma Case Study
Data Plan Part 2: Registry Operations Manager Viewpoint
Decoding the AIS Language
Decreasing the Trauma of Trauma: Providing Emotionally Safe Care to Injured Pediatric Patients
Dog Bite of the Neck: A Pediatric Complex Case
FACE OFF: AIS VS ICD-10 Coding Rule Differences
Geriatric Trauma: Anticoagulants
Hip Fractures and What You Need to Know as the Registrar
Hollow Mistakes, Solid Fixes: Mastering Organ Injury Coding
How to do Safety Screenings

ICU Best Practices for the Trauma Patient
Impact of Secondary Trauma on the Team: It's Real
In-depth Review: Geriatric Head Injury
In-depth Review: Penetrating Truncal Injury
Life on the Line: The Deadly Cost of Ignoring Stress Management of High Velocity Gunshot Wounds in Pediatric Patients
Management of Multiple Trauma Patients
Management of Pediatric Intracranial Gunshot Wounds
Mass Casualty Incident: How to Prepare
Mature Leaders: Who They Are and What They Do
Navigating the Landmines of Recruiting, Onboarding and Retention of Trauma Registrars
Once Bitten Twice Shy - Coding Complexities of Dog Bites
Pain Management in Pediatric Trauma
Palliative Care for Trauma Patients
Pediatric and OB Trauma
Pediatric Burn Care for the Non-Burn Practitioner
Pediatric Burn Patients: Not Little Adults
Pediatric TBI: Early Evaluation and Stabilization
Pediatrics: Development of a Systematic Protocol to Identify Victims of Non-Accidental Trauma
Pelvic Fracture Features
Pharmacology and the Elderly Trauma Patient
Root Operations & Coding Procedures for Trauma Patients
Sentinel Events
Spinal Cord Injuries Part 1: Pathophysiology, Pre-Hospital Care & Cord Protection
Spinal Cord Injuries Part 2: ED and Early Care
Spinal Cord Injuries Part 3: Inpatient Care
Spinal Cord Injuries Part 4: Care Following OR Procedures
Spinal Cord Injuries Part 5: Rehabilitation
Spinal Cord Injuries Part 6: Coding Spinal Cord Injuries for Registrars

Spinal Cord Injuries Part 7: Journey of a SCI Survivor
Synergy: A Hemorrhagic Case Review
Talk to the Hand
TEG Talk: Saving Lives Through Better Data
The Challenging Patient: Burns and Trauma & Less Common Burn Injuries
The Fundamentals of Coding for Burn Injuries
The Story of "Rebar-Man"
The Trauma Patient Who is Transgender or Gender-Expansive: Special Considerations for the Trauma Team
This Little Piggy...NOT!
Trauma Complications: Best Practices to Avoid Complications
Trauma for the Bedside Nurse: From Chaos to Concise
Trauma Resuscitation and Beyond
Trauma Team Burnout
TBI PART ONE: EMS & ED
TBI PART TWO: Biomarkers for Traumatic Brain Injury and Applications in Pediatrics
TBI PART THREE: Management of Traumatic Brain Injury & Case Studies
TBI PART FOUR: ICU Complications and Early Prognostication
TBI PART FIVE: Initial 48 Hours
TBI PART SIX: Rehab: Acute Medical Complications
TBI PART SEVEN: Journey After Rehab
TBI PART EIGHT: Survivor Stories
TBI PART NINE: Best Practice Guidelines for Coding
Understanding Trauma Informed Care, Resiliency, and Your Health
What if the World Trade Center Buildings Did Not Collapse? Here Comes the Boom!
What You Need to Know about Transfusion Medicine But are Afraid to Ask
Workplace Violence
Your Data – New Year Resolution
