The Power of Earned Media

It's one thing to tell your story, it's another to have someone else tell your story. And when that someone else is a member of the editorial media, their words pack the one/two punch of reach and credibility. In this session, learn how to "get to" the writers, editors, producers on your wish list, and turn ideas into results. We'll practice "telling" your story in mock pitches, and share some real-life examples of great hits, and a few horror stories for laughs.

Speaker: Dee Dee Poteete, Director of Regional Communications, Visit San Antonio

8:30 AM – 9:45 AM ***Texas Friendly...or Not? The Tourism Professionals Role in Managing Visitors' Experience***

One of the more difficult challenges tourism professionals face is the fact that what we work so diligently to promote, other people actually deliver – and that delivery is not always in keeping with the message we are sending out. As professionals, we already know that the point-of-sale is just the beginning in what we hope will be a long, successful, and mutually beneficial relationship with our guests. Sadly, our interaction with guests typically ends at that critical point and their experience with our product is in the hands of complete strangers who may or may not grasp the significance of their part in keeping our products, businesses, communities, and state economically healthy. What can be done? This interactive, hands-on class will introduce students to the updated Texas Friendly Hospitality Program of the Texas AgriLife Extension Service at Texas A&M. Students will gain practical how-tos that can be immediately implemented toward impacting guests with true Texas hospitality.

Speakers: Kim Phillips, Vice President/Director, Denton Convention & Visitors Bureau

Content Marketing and Audience Development

Content Marketing is one of the fastest-growing channels in the world of marketing. This year, more marketing dollars will be spent in an effort to engage audiences through stories, rather than traditional advertising, that any year in history. This class will provide an overview of the two most important aspects of this growing trend. First, we will look at the stories themselves. Story telling don't happen by accident, great stories have structure and design. They are developed in a way that will elicit emotions and inspire the reader to want to continue reading. The second part of the class will focus on audience development through targeted distribution channels and social media.

Speaker: Daryl Whitworth, CTE, Regional Account Manager, Madden Media

Anatomy of a Successful Travel & Tourism Blogging Program

Congratulations, you're an online publisher, and now you want to start a blog to attract more visitors & guests. But....exactly how does one DO that? In this two-part session, we'll take you to the back end of blog publishing software & into the mind of an experienced blogger to show you the critical elements of a successful blog post, because content is only part of the package. Then, we'll demonstrate how to stitch all those posts (and maybe multiple authors) together into a blogging system that gets eyeballs on your work & attention for your destination, attraction or hotel.

Speakers: Sheila Scarborough, Co-Founder, Tourism Currents and Ashley White, Digital Communications Manager, Beaumont Convention & Visitors Bureau

Sense of Place - Use it to Strengthen Your Visitor Experience

Imagine New Orleans without its spontaneous parades or Austin without its bats – they wouldn't be the same, would they? So, how are YOUR visitors' senses being engaged? We're not talking about your brand or your reputation for football. We're talking about the emotional and sensory experiences your community and attractions provide for residents and visitors.

In this interactive session, we'll use vivid examples as a springboard to identify how destinations, restaurants, attractions and even lodging properties can increase their appeal and outline specific ways to build upon the positives (even embracing the negatives) as you develop and market richer cultural and heritage experiences.

Speaker: Vicky Soderberg, Cygnet Strategies, LLC

Twitter for Tourism: How the Game is Changing

Since its launch in 2006, Twitter has grown to 320 million monthly active users. Some say it is way too noisy now and almost not worth the effort, because data shows that brand engagement rates are not very high, especially in comparison to, say, Instagram. Despite these valid concerns, Twitter is still a huge opportunity for tourism and hospitality, not so much anymore as a place to broadcast, but as the best social platform for customer service as a digital Visitor Center/concierge. Learn how to make the most of today's Twitter, even with a limited staff and budget.

Give the People What They Want

As destination marketing organizations, we are no longer in complete control of our destination marketing message. Travelers are less trusting of organizations and more trusting of people. Eighty-four percent of consumers say they either completely or somewhat trust recommendations from family and friends about products and services. Travel is no different, as it is both a product and a service. In this presentation, we will discuss how destination marketers can let go of the reins and utilize locals and past visitors to share the destination message and amplify your marketing campaigns.

8:30 AM – 9:45 AM ***Internal and External Analysis Tool YOU Can Use!***
External and internal forces shape your business and community’s direction, but reacting to these forces makes you feel like you are chasing the rabbit. Would you rather create brainstorming sessions that help you predict the rabbits move...maybe even start to control the rabbit? Okay, we will not be talking about rabbits, but this session will bring in marketing tools that you use in your business, collaborate with co-workers and build a plan to develop business direction, perception and mindset that control the destiny of your business.
