

LISA TAYLOR

POSITION APPLIED FOR: **DIRECTOR**

WHAT DO YOU VALUE IN BEING A MEMBER OF TUG?

I value being a member of TUG for the collaboration and sharing of information as an end user of Sage 300. Being a member of TUG has opened a whole new world to me as an end user - making processes simpler within the software. It has also allowed me to share this information with others in my department and company, which makes us a better team.

WHAT DO YOU SEE AS THE MOST IMPORTANT GOAL THAT TUG NEEDS TO STRIVE FOR?

What I see as the most important goal TUG needs to strive toward is the continuing education of users in Sage 300, Sage Intacct, MyAssistant, and other applications like ODBC and Crystal Reports that allows for a better experience with the software while getting the most out of the investment.

WHY WOULD YOU BE A GOOD LEADER WITHIN THE TUG ORGANIZATION?

I think I would be a good leader within the TUG organization because I enjoy working with other leaders that have a great understanding of Sage 300, sharing that knowledge with other users not just in my organization, but also others within the TUG community. I value the partnerships I have made with various members and would like to continue making other partnerships that will benefit the organization.

Being a member of TUG has opened my world in more ways than I could have imagined. It has allowed me to gain a better understanding of Sage 300, MyAssistant, and other uses of the software that has made many of my processes and those in my department vastly easier. Being a member has made me want to push myself to learn more and get out of my comfort zone in trying to learn how to make processes easier. I enjoy learning from others who enjoy what they do and that trait is in abundance with the leaders of TUG and those that like to teach the classes at the conference and the various webinars throughout the year.
