WHAT DO YOU VALUE IN BEING A MEMBER OF TUG?

I value being a TUG member because it combines professional growth with service, community, knowledge exchange and enduring friendships. Through TUG, I've been able to learn from others, share my experience, and build trusted relationships with people who are both colleagues and friends. I value the opportunity to learn, lead, and collaborate within a supportive community.

WHAT DO YOU SEE AS THE MOST IMPORTANT GOAL THAT TUG NEEDS TO STRIVE FOR?

TUG needs to strive toward building up our community and look to incorporate the evolution of Sage software, including Intacct and Sage Construction Management while supporting existing software offerings. We need to continue to offer meaningful training and engagement for all members.

WHY WOULD YOU BE A GOOD LEADER WITHIN THE TUG ORGANIZATION?

I believe I would be an effective leader for TUG due to my long-standing commitment, breadth of service, and deep understanding of the organization, management company and its members. Having served as a board member, Vice President, and President, I bring institutional knowledge, continuity, and not afraid to discuss important topics and issues. My involvement across committees, publications, and national conferences reflects a service-oriented mindset focused on strengthening community, supporting fellow members, and guiding TUG's continued success.
