

10 benefits of using MIPSwizard®

1 Pick your pace

Maximize your incentive or just report the minimum to avoid penalties. You decide.

2 Insight into your patient population

MIPSwizard provides interactive views into performance data down to the patient visit.

3 Quick, easy & cost effective

MIPSwizard enables data entry through easy-to-follow chart review forms and data upload tools.

4 Individual & group submission available

Decide whether you want to report as an individual or a group. Registering 10 or more clinicians? Volume discounts available.

5 Real-time data validation

See how you're tracking on any measure before you submit.

6 Retrospective features

Didn't do your reporting last year? Let MIPSwizard help. MIPSwizard allows for data to be submitted both prospectively and retrospectively.

7 Works with your EHR/EMS

MIPSwizard allows for easy integration with your electronic system.

8 Real-time performance feedback

Track performance at any time and identify gaps in care. Use feedback to improve and optimize scores.

9 See how you're doing

Use our comparison feature to benchmark your practice vs. the nation.

10 Go with the best

MIPSwizard is the #1 Registry for Quality Reporting to CMS.*
