

Donna Greenhalgh

I attended Montclair State College and majored in Accounting. I've worked for AT&T for 32 years, during that time; I've managed the Unclaimed Property Team for 20 years. I enjoy my role due to the diversity of the processes and the different groups I get to interact with on a daily basis. In my role I assist property owners, work with state UP administrators/claims representatives, work with finder agencies and deal with various groups within my company. In my spare time I love to give back to the community. I volunteer with my church and various school organizations and have been a Girl Scout leader for my daughter's troop for the past 9 years. Some things I enjoy are spending time with my family and traveling.
