

## **Stronger Together**

This is a difficult and challenging time. Valley Partnership strongly condemns racism, prejudice, bigotry and violence of any kind. The inequities that exist in our community do not reflect the values of this organization. We believe the diversity of our community, state and nation is our greatest strength.

We acknowledge there is much work to do in addressing this inequity and as an organization we will work with community partners to be part of positive change.

This is a time where we must work together regardless of political affiliation, race, or religion, to directly address what is happening and bring peace.

Together, we will get through this challenge and create a community that is welcoming to all.
