TVM Trainer in Value Management

Professional development
Major events

April 2018
Combined conference Asset management & VM

2022
World Congres ICEC 2022, VM will be part of this conference
Challenges

- Community is growing, but little spin-off in active participation
- VM is mainly applied to infrastructure projects (Ministry of Infrastructure and Environment). Introduction in other fields
- Biggest task of the SIG VM DACE is to increase VM awareness in other societies and fields. (e.g. Assetmanagement Conference in 2018)
